

10-10-68

GERMANS WILL HASTEN PEACE REPLY

TO REACH POPE WITHIN FEW DAYS

BY INTERNATIONAL NEWS SERVICE
LEADS WIRE TO TRIBUNE
COPENHAGEN, Aug. 22.—Negotiations are under way between Berlin, Vienna, Sofia and Constantinople as to the reply German shall make to the peace note of Pope Benedict.

It is understood that the German reply, which will answer for the entire German alliance, will be forwarded to Rome within the next few days. The Swiss press is showing restraint in its comment upon the declaration of Chancellor Michaelis that Germany cannot offer peace until overtures are forthcoming from the entente.

GERMANS PLEASED.
The Vienna Reichs Post says it has reliable information that the Pope's peace note is in absolute harmony with the aims of the monarchy. Austria-Hungary, according to the paper, is willing to evacuate occupied territories and renounce claims to indemnities once the Pope's idea of disarmament, international arbitration and freedom of the seas are guaranteed and world peace is carried out; but all the consequences deducible from the Pope's proposals must be understood to be included therein—namely, the disappearance of the British naval bases at Gibraltar, Malta and the Suez canal, and also the Italian abandonment of Varona.

WILSON FRAMING REPLY.
WASHINGTON, Aug. 22.—President Wilson today turned his attention to framing a reply to the Pope. He probably will have it in the tentative draft ready for his cabinet Friday. The response may go forward Tuesday.

AMSTERDAM, Aug. 22.—Berlin has no present hope of peace, despite Pope Benedict's plea. Despatches from Berlin today indicated this view by the public, following Chancellor Michaelis' speech to the Reichstag, portions of which appeared in this morning's newspapers.

BERNE, Aug. 22.—It was reported on good authority that an effort has been made by the Vatican to have the Spanish government take a definite step in support of Pope Benedict's peace note.

NEW SUIT IS FILED

J. W. Garthwaite, president of the local chapter of the Red Cross, has been made defendant in a second suit by Mrs. Harriet S. Cochran, filed yesterday, in which the plaintiff asks for \$10,000, in which sums she says she was damaged when Garthwaite is alleged to have obtained money by false pretenses.

In her first suit Mrs. Cochran asked for \$5000 from Garthwaite. Acting Chief of Police J. F. Lynch and Police Inspector William Smith for false arrest and imprisonment. Both offenses are claimed to have been committed on August 17, when Mrs. Cochran, a solicitor for the Sunset Magazine, is said to have been arrested at the request of Garthwaite, who is also alleged to have accused her of soliciting in the name of the Red Cross.

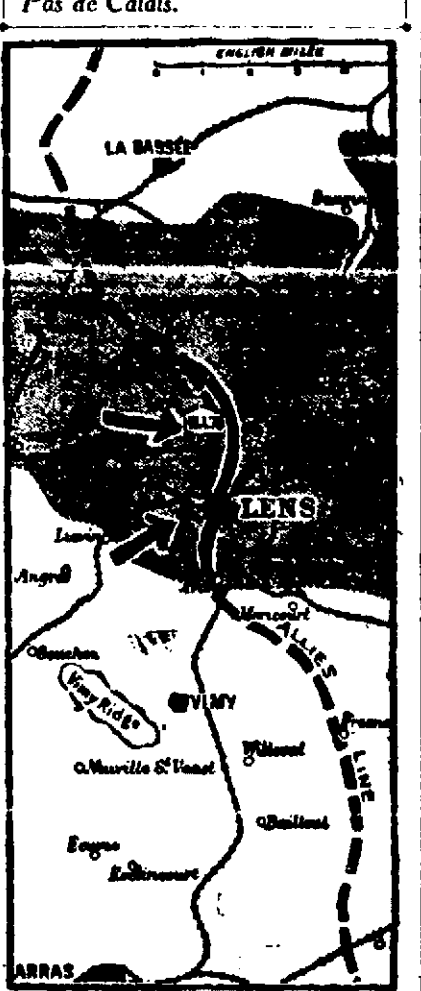

DIVORCE MILL

Alameda county's divorce mills yesterday ground out the largest supply of mistaken marriages in weeks, five cases being disposed of. Julia A. Collins was granted an interlocutory decree from Alfred A. Collins. The following final decrees were granted: Constance J. Mercer from Harry W. Mercer, Constance H. Platt from Ralph H. Platt, Carl J. Danielson from Lucinda Danielson and W. H. Cotter from Ruth Cotter.

Suits for divorce were filed by E. H. Miller against Lillie Miller, Mae Sontag against John A. Sontag, Anna M. Johnson against Herbert Johnson and May S. Miller against Walter H. Miller.

STRIKERS STONE CARS IN S. F.

(Continued From Page 1)

had not made a single arrest. When the patrol wagon full of officers reached the scene the disturbance was over and the gang, which included many hoodlums who are not among the ranks of the strikers, had gone to other points. There were at least two distinct instances of violence on the part of mobs in the Mission district alone in the forenoon.

Among those hurt at the Mission Emergency Hospital is Frank Lauson, terribly beaten, lacerated scalp, face and body. Lauson, an old employee, first went on strike and then returned to work at Twenty-sixth and Bryant streets his switch was blocked and he got off the car to remove the obstruction. He was then stoned by rioters.

From Twenty-sixth and Howard streets three men were taken to the hospital. They were H. Meyer, one of those injured yesterday, who was hit on the head with a controller bar when an effort was made to pull him off a car. His head was laid open. Charles Areno and Louis Malsome both received lacerations of the scalp.

The rioting near the Labor Temple is said by the police and strikers to have been caused by strikebreakers. A car of the Howard-street line transferring fifty strikebreakers from one barn to another stopped at the Sixteenth-street crossing. It is claimed that the strikebreakers, seeing strikers pouring out of the temple, jumped off the car and began an attack with gas pipes and clubs. The strikers and their adherents repulsed the assault, when a second car containing half a hundred guards came up. The guards were warning off to engage in the battle when the police arrived.

At Twenty-sixth and Bryant streets, when Frank Lauson turned the switch and was attacked, the car was completely wrecked. When the police reached the scene, Robert Shephard, the guard, with blood streaming down his face from cuts on the head, was the only one left. Every window had been broken and the inside of the car littered with stones and bits of concrete. The police had the car towed to the barn. It was learned that the crew had fled by jumping over a fence.

Louis Larsen, a strikebreaker arrested the first day of the strike for assault with a deadly weapon, had changed his colors this morning when he appeared before Police Judge MacDermott. He was wearing a strike button with \$3.50 a day inscribed thereon. When Attorney James Sheehan of the United Railroads saw this he surrendered Larsen into custody, the company having previously gone his bail. Attorney John Grealey, representing the strikers, promptly bailed him out again. The case was continued.

Thomas Nolan of New York and William Nolan of Pennsylvania, who bear no relation to each other, save that they are brothers in arms as strikebreakers brought here yesterday, wandered downtown this morning from the Twenty-eighth and Valencia-street car barns, visited the chop suey restaurant of Choy Quong in Chinatown, and were soon in the city prison. Choy Quong accuses them of attempted grand larceny following a fracas in his cafe.

MAYOR HOPEFUL OF CONFERENCE

Mayor Rolph announced this morning that this afternoon he hoped to have a conference with the officers of the United Railroads in an endeavor to end the strike. He stated that he hoped to have conditions bettered prior to his leaving for Washington.

Allies Smash All German Lines Greatest Battle of War Is Raging

(Continued From Page 1)

sitions were maintained. Heir declared. "Northwest and north of Lens additional ground was gained. In the same section a strong German counter-attack was repulsed. "East and northeast of Ypres there was great mutual artillery activity at night."

The war's greatest concerted offensive movement went on fiercely without abatement and with continued gains for the allies today.

GERMAN HORDE DRIVEN FURTHER BACK

The French appeared to have made the most rapid strides forward in the most sanguinary fighting. The German horde that once clutched Verdun almost to the point of suffocation was driven still further back. The bloody slopes of Cote L'Oie, the villages of Regenville and Samoneux, with intervening fortifications, were all swept clean of the enemy. Counter attacks last night made with desperation born of German war chiefs' knowledge that the French offensive was only beginning, brought the enemy nothing but heavy losses.

Next in violence of the fighting was the great battle over practically the entire Italian-Austrian front. Rome reports continued success for General Cadorna's drive. Every sort of war machine has been called into action to pulverize the rocky fortifications of the Austrians, monitors shelling from the Gulf of Trieste, huge siege guns, British and French artillery, new and heavy developed bomb airplanes, trench mortars and all arms of man-killing. The greatest gains so far attained were in the line above Gorizia.

ENEMY LINES NEAR BREAKING POINT

LONDON, Aug. 22.—Fresh victories crowned the arms of the allied armies on the western and allied fronts today.

Although they are resisting desperately, the German and Austro-Hungarian lines at some places are bending perilously near to the breaking point.

The chief successes of the entente forces in the past 24 hours have been won in these sectors:

First—By the British at Lens. Second—By the French at Verdun. Third—By the Italians on the Carso plateau.

On the eastern front the battles are without decisive result as yet. More than 1200 aeroplanes have been in action over the various zones of battle on the western and Italian fronts during the past 24 hours.

AUSTRIANS DRIVEN FROM TRENCHES

The main body of the Italian troops massed on the far bank and in a bloody battle drove the Austrians from a triple line of trenches. A steady artillery fire shattered the enemy lines as the victorious troops pushed on.

VIENNA, Aug. 21 (via London), Aug. 22.—The new attack of the Italians has forced back the Austrian line at some points, the war office announces, and the village of Selo, on the Carso plateau has been lost. It is said the Austrians have taken more than 3600 prisoners.

ITALIANS TAKE OVER 13,000 PRISONERS

ROME, Aug. 22.—More than 13,000 Austro-Hungarian prisoners have been captured by the Italians in their offensive on the Isonzo front, the Italian war department announced today. The Italians also have taken thirty guns.

General Cadorna reports that the Italians have gained new successes along the whole battleline. North of Gorizia the operations are proceeding regularly. To the south the struggle is localizing, especially on the Carso front.

Wash Away Skin Sores

D. D. D., the liquid wash, has become a household name. It has proved itself a remarkable remedy. If you are a sufferer from skin diseases, including eczema, psoriasis, scabies, dandruff or itching in any form, this remedy will not disappoint you. It has cleared the skin and today is the most popular preparation for all skin diseases. Try D. D. D. We guarantee it. 50c per bottle. 777 D. D. D. We guarantee it. 50c per bottle.

TAX RATE FOR COUNTY SET AT \$1.04

Alameda county's tax rate outside of city taxes will be \$1.04 cents this year as compared with \$1.02 last year. The budget was completed today by the supervisors and is on the way to Sacramento to receive the approval of the State Board of Authorization.

While the rate is increased the requests of the various departments were cut to a total of more than \$200,000, and the county infirmary was the worst sufferer in this respect. There was necessity for providing for bond interest, the limitations set by the State law permitting no increase of more than 5 per cent in excess of the levy the previous year.

The need for more buildings of a permanent nature at the infirmary was urged upon the supervisors, but the board, pleading that the new law would make it impossible for them to allow for this work, asked that the alternative proposition presented by the commission for temporary construction be adopted for this year.

Under the first program it was asked that \$222,322 be allowed for an additional men's ward and a service building which the commission urged as being absolutely imperative if the place is to be put on a sound, economical basis. This was disallowed on the ground that the law permits of only 5 per cent increase over the levy of the preceding year.

IN TEMPORARY WORK

That the opportunities for bettering the infirmary will not be within reach, owing to financial restrictions, was evident when the item for new construction was stricken entirely from the budget and the temporary plan substituted by which \$57,850 was allowed for the remodeling of the old tubular buildings to house the old men who have been forced to accept whatever accommodations could be found for them in the overflowing infirmary.

For supplies and operation \$223,000 was asked and \$110,000 allowed. The question of whether the hospital was to be permitted to install an efficient office force was left to the infirmary authorities, but the means of paying a manager and stenographer were not provided as from \$59,993 to \$55,000.

The Livermore tubercular hospital came in for its share of slashing when \$2000 was cut from the estimated need of \$128,000.

Considerable interest was shown in a comparison of budgets presented and budgets after the board had completed its work of keeping within the limits of the law. Items such as road and bridge construction suffered materially less than the infirmary and other county institutions which have been considered as of greater importance.

ESTIMATES CLAIMED

A total of \$2,287,213.86 was asked by all departments of the county and \$1,974,885.64 allowed, leaving a saving of \$312,327.22. Of this saving almost two-thirds was on the infirmary alone, or approximately \$220,000, as compared with \$82,000 for roads, etc. For the Livermore unit and the infirmary proper, a total of \$42,950 was included in the final budget.

County Auditor E. F. Garrison said he confidently expected to receive the state's approval by Monday at which time it is hoped to have the school rate ready for addition to it. The school budget limits are fixed by law, based on attendance, and are almost entirely mandatory in the amounts to be allowed.

BOPP PROTESTS AGAINST BEING CALLED PEST

SAN FRANCISCO, Aug. 22.—Franz Bopp, former German consul general, arose in the Federal court this morning and protested against the epithet "pest" applied to him by United States Attorney John W. Preston.

"I have written to Major-General Hunter Liggett protesting," said Bopp, "and I have demanded a full investigation."

Preston, responding, declared that when he said "pest" he really meant nuisance, and referred to Bopp's frequent complaints sent to officers and officials of both military and civil authority.

Bopp and Vice-Consul E. H. Von Schack were in court under military guard to answer charges in connection with the Hindu revolution and Sacramento cases. The hearings were continued until Monday.

CAMP INSPECTED

CAMP FREMONT, MENLO PARK, Aug. 22.—Major General Hunter S. Liggett, commander of Camp Fremont, inspected the camp today, his first visit since construction began. Before night a company of Oregon national guard engineers will arrive, relieving California engineers now on duty.

HAGEMANN NOT SPY LAFLEER DECLARES

That Dr. Werner Hegemann, noted city planning expert, is as far from being a German spy as he is from Germany at the present time, despite charges made yesterday to the city council by Mayor John L. Davis, was declared by Harry Lafler, a close friend of Dr. Hegemann today. Lafler possesses a letter written by Dr. Hegemann from Milwaukee under date of July 11. He resents the accusation made by Mayor Davis against his friend and declares that the matter will be made an issue from a legal standpoint.

Mayor Davis in council yesterday said that he understood that Dr. Hegemann, who three years ago made a survey of the city and whose report was a comprehensive outline of its potential advantages as a future metropolis, "is fighting against the Allies," and further expressed his belief that the doctor at the time of making the survey may have been in the employ of the German government.

Ugh! Calomel Sickens; Salivates! Please Try Dodson's Liver Tone I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad, stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick; you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful, full of vigor and ambition. Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Advertisement.

ST. GEORGE SONS SHOWN OVER CITY

The social phases of the big annual convention of the Pacific jurisdiction of the Sons of St. George, held away today to the exclusion of the city, was devoted to varying activities which range from an automobile parade to a ball in the evening.

This morning the visiting delegates to the number of 500 were the guests of Albion Lodge No. 206, the local chapter of the organization, Mayor John L. Lister and the city commissioners at an inspection of the city hall. The guests were taken in elevator loads to the top of the city hall tower, where they looked down upon Oakland and surrounding country.

At noon visiting members of the convention were the guests of the local chapter at a luncheon at Albion hall, Twenty-fifth and Grove streets. The program of the day's events included a parade through the downtown portion of the city, in which the Sons of St. George drill team, General Wagstaff and staff from San Francisco, representing the British Branch Office, recruiting service, and distinguished members of the order were in line.

Tonight the main social function of the convention is to be held at Albion hall, where the grand ball is to be staged. Invitations to city officials, members of other organizations and British-born Americans affiliated with the order have been invited to attend. Tomorrow the real business of the convention will take place. The introduction of important war resolutions, selection of officers and meeting place for next year and other details will be determined.

DENIES GUARDIAN

Dr. Paul T. Carrington's petition to have a guardian appointed for his aged mother on the ground that she was incompetent, was denied by Superior Judge E. K. Estep yesterday. This is the first of two steps being taken by Dr. Carrington to take the control of his mother's property out of her hands. Carrington testified that she was an able business woman, despite her years, and that she is well able to handle her affairs without help. He also stoutly denied the statements made by Carrington that Mrs. Carrington had ever been addicted to the use of intoxicating liquors.

POOLE WILL TALK

William C. Poole, enjoying a vacation in Oakland from his duties at Harvard University, will be the speaker at tomorrow's luncheon of the Rotary Club. Poole was president of the old Tri-City Rotary Club. The subject of his address tomorrow will be "Education and Democracy."

MACABEES PLAY WHIST

Oakland Review No. 14, Women's Benefit Association of the Macabees, will hold its regular monthly whist tournament tomorrow night at Fort... The committee has spared no pains in making the party the event of the season.

Your "Get-Away Power"

In summer is a matter of fuel-food for the human engine. Food that is hard to digest and low in nutritive value uses up needed power by overtaxing the digestive organs. Shredded Wheat Biscuit is all food. It is 100 per cent. whole wheat and is prepared in a digestible form. Changing from meat and potatoes to Shredded Wheat brings a mental buoyancy and physical alertness that makes one eager for the day's task. For any meal with sliced bananas, berries or other fruits. You are invited to visit our new model, sunlit, sanitary factory at Oakland, California.

Great Faith in Chamberlain's Colic and Diarrhoea Remedy

"Chamberlain's Colic and Diarrhoea Remedy was used by my father about a year ago when he had diarrhoea. It relieved him immediately and by taking three doses he was completely cured. He has great faith in this remedy." writes Mrs. W. H. Williams, Stanley, N. Y. For sale by Osgood Bros. drug stores.—Advertisement.

GIRLS IN AUTO COME TO GRIEF PELTING COUPLE

SAN FRANCISCO, Aug. 22.—Adopting a novel method of showering rice upon a bride and groom, Miss Dorothy Dempster of 881 Clayton street, filled her automobile with missiles last night and then took a number of her friends into her confidence. The result was most disastrous, as Miss Dempster and one of her chums, Miss Loreta Callahan of 900 Clayton street, were injured, the latter seriously, and the newlyweds made their escape.

The wedding was that of Brenda Roberts, daughter of Dr. and Mrs. H. P. Roberts of Parnassus avenue, and F. Courtney Johnson of the Dubroia Motor Company.

Miss Dempster conceived the scheme of following the bridal pair in her automobile and showering rice and old shoes upon them as they dashed down town for the last time. The couple had been married at All Saints Church by Rev. Harvey Hanson. A wedding supper followed at the Roberts home. Then the bride and groom entered the latter's home and started off.

Miss Dempster with seven other young people crowded into her car and followed. All were throwing rice and shoes at the Johnson car and the Dempster machine was running parallel to it when Miss Dempster lost control and crashed into a telephone pole. The accident happened at Fulton street and Masonic avenue. Miss Callahan suffered a badly lacerated scalp and injuries to the arms and legs and Miss Dempster received a badly contused arm. Both went to the Central Emergency Hospital.

MARINE ENGINEERS WAIT STRIKE ORDER

Determined efforts are being made by shipping men to avert the threatened strike of marine engineers, due September 1. An increase in wages is the pivot point of the controversy and it has become necessary for the maritime committee, Associated Chambers of Commerce of the Pacific Coast, to act as mediator.

Salaries of marine engineers range from \$100 a month for third and fourth class men to \$275 for chief engineers. The demanded wage increase ranges from 22 to 44 percent. It was the original intention of the Marine Engineers' Benefit Association to strike for the new scale August 15. This, however, was set aside for the later one at the request of J. C. Rohlf, maritime committee man, who called the peace conference.

WASHINGTON, Aug. 22.—Confidence that strikes will not hold up naval work was expressed today by Secretary Daniels. In reply to questions regarding the New York strike situation, the secretary said the government had a chance to adjust the wage scales. The navy department will rate wages according to the scales prevailing around the navy yards, he said. A committee, including Walter Lipman, for the war department; Franklin Roosevelt, for the navy department; and William Blackman, for the labor department, will report on an investigation of wage scales in the vicinity of the navy yards and arsenals on August 24. Secretary Daniels said the government will pay increased wages if necessary and insert a new scale in effect early in September.

NEW YORK, Aug. 22.—The strike of 15,000 marine workers in and around New York City threatened today to extend to the Brooklyn navy yard and tie up construction work on war vessels. With demands for a navy yard strike, backed up by thousands of strikers, in the hands of the union leaders, shipyard officials looked toward Washington for action that would prevent further interference with the government's shipbuilding program. Two conciliators sent here by the department of labor went into conference with the strike leaders today.

F. M. SMITH SUED FOR \$245,811.65

Suit for the recovery of \$245,811.65 was filed yesterday by Mary E. Kibbe and Edmund J. Burkhardt against F. M. Smith, Oakland traction magnate. Mrs. Smith and the United Properties Company.

It is charged in the complaint that Smith's control over the San Francisco-Oakland Terminal Railways made it impossible for the collection of a judgment awarded in a northern court.

According to Herbert V. Erskine of Keene, N. H., attorney for the two plaintiffs, the suit against Smith is to compel him to pay up his subscription to the United Properties Company and the suit against the United Properties Company to compel it, out of the funds Smith is asked to furnish, to make good the contracts under which Kibbe and Burkhardt, the latter an assignee of many others, are alleged to have paid for bond certificates of the United Properties Company.

"We allege," said Erskine, "that Smith invested a large amount of money in stock of the West End Mining Company and put this in his wife's name. We ask that he pay this money to the United Properties Company and that the latter satisfy our judgment out of it."

Many purchasers of United Properties Company's certificates are represented in the suits, according to Erskine.

FREE TO FIGHT

LOS ANGELES, Aug. 22.—One thing Ella M. Mott wanted before he sailed for France with the naval reserve was a divorce from Winifred Grace Mott. So, speeding up the Court a bit, he won his decree today on desertion allegations.

GOOD CROPS HERE ARE FORECASTED

Reports from United States Weather Bureau correspondents for the week ending August 21, 1917, are to the effect that the weather was unusually favorable for the advancement of growth in California, and it was especially favorable in the coast counties, where the nights and the mornings were cloudy or foggy and the days were sunny and warm.

The barley harvest is practically completed and the thrashing yields continue satisfactory. Corn and good progress has been made and milo varieties are looking remarkably well. Some farmers have begun cutting green corn for ensilage.

The peach harvest is well advanced and the yield is good, except in the lower valleys where the crop is being ruined by the hot spells that occurred last June and July. Grapes are ripening satisfactorily and shipments of Thompson Seedlings and Malagas from the San Joaquin valley are increasing rapidly.

Red spiders are unusually numerous on the almond trees, and growers will have to be on the alert to get any worse. Farmers are still planting late potatoes, and this crop made good progress during the week. In a few of the northern counties, and also on the land back of the Sacramento river, potatoes are poor, but in localities where the acreage is largest the crop is generally in a promising condition.

The bean harvest has begun in the neighborhood of San Diego, and the recent weather has been especially favorable for this crop. The acreage is large, and while some inexperienced growers planted too early and their crops did not bloom or set well, and others lost heavily through grasshoppers, the general outlook for this crop is good. In the southern counties some complaint is made of aphids injuring beans, but this pest is common to general and no spraying for them has so far been reported as having been done.

Rice is doing splendidly and no complaints are made about this crop. Some rice are reported on lowland bays, but it is thought that the rice not do any great harm. The sugar beet harvest is progressing slowly, and labor for handling the crop as well as for general farmwork is scarce and costly.

RACE RIOT PROBE IS WATCHED HERE

Local members of the National Association for the Advancement of Colored Peoples are interested in the outcome of the Dyer resolution, now before the House committee on rules, providing for the investigation of the recent race riots at St. Louis and appropriating \$50,000 for the work.

Telegrams and letters urging the passage of the resolution have been sent by W. A. Butler, president of the association at San Francisco, and Mrs. T. de Hart, 867 Thirty-fifth street, secretary of the association in this city, to the national and senatorial representatives of this state and district. Senators Johnson and Phelps have promised to give the requests in their construction the Elston and Kahn have already promised to support the measure.

The congressional committee of investigation comprehended by the Dyer resolution is to consist of five senators and five representatives. Their work will be to make a thorough investigation for the purpose of determining whether or not federal enactments to prevent the recurrence of similar troubles are a necessity. The subcommittee will report to the joint judiciary committee of the House and Senate when the work is done.

WILL TALK PEACE

Pope Benedict's peace proposal and other suggestions for an early peace in the interests of world democracy will be discussed tomorrow at an all-day session of the People's Council, the national organization for the furtherance of peace, of which David Starr Jordan is president. Meetings will be held in Maple Hall, Fourteenth and Webster streets, at 10 o'clock in the morning, 2 o'clock in the afternoon and 8 o'clock in the evening.

The speakers engaged for the occasion are Daniel O'Connell of San Francisco, who is now under indictment for interference with the operations of the draft act; the Rev. Robert Whitaker of Los Gatos, Andrew J. Carroll of San Francisco, Walter Thomas Mills of Berkeley and Mrs. Mary Field Parton.

The meetings have been arranged by the Alameda County Branch of the People's Council. The organization, which has the accomplishment of an early peace as its sole purpose, already has a considerable membership in the east bay cities.

CRAFT OF INDIANS

SACRAMENTO, Aug. 22.—The fitness of the California Indian to take his place as a self-supporting citizen of the state will be demonstrated at the California State Fair here next month.

Acting through the department of Indian affairs, the United States government will make complete exhibits of agricultural and horticultural products, handicraft, needlework, fancy work, all kinds of shopwork and miscellaneous articles of manufacture—all the products of young and old Indians of both sexes. Each of the twenty Indian agencies and schools of the state will be represented. The Semiahmoo Indian Institute of Riverside will also enter a band in the State Fair's annual band contest Sunday, September 3.

MODESTO IS DRY

MODESTO, Aug. 22.—Modesto voted to enter the list of dry cities in California yesterday. The vote was 1156 to 944 for the adoption of a bone-dry ordinance. Less than 60 per cent. of the total registration was voted.

Scores of voters were challenged by attorneys for both wet and dry forces at each election booth. Women took a prominent part in the activities during the day, many driving automobiles carrying voters to and from the polls.

WILL HOLD RALLY

Rev. Albert W. Palmer will be the principal speaker at a meeting of the Sons and Daughters of Washington, which is to be held at Lakeside Park on the afternoon of Sunday, August 26, at 2.30 p. m. The meeting, which will be in the nature of a patriotic rally, will be attended by members of the order, patriotic organizations which have been invited to participate, and the general public. An elaborate musical program has been prepared for the occasion. Dr. Palmer will talk along national lines.

AIDS MANY POOR DURING PAST YEAR

Reports of activities for the fiscal year just closed have been issued by the Volunteers of America, the philanthropic, social and Christian organization which is now in its twenty-first year of existence. In connection with the Oakland branch, 370 meetings were conducted, attended by 25,745 persons. Food supplies were distributed to 7972 persons, aside from the 660 who were given Thanksgiving and Christmas dinners. Seven hundred and fifty garments and shoes, together with numerous articles of furniture, were distributed to poor families without cost to the recipients.

The headquarters of the Volunteers of America in Oakland are at 220 South street. The organization has fifty-six principal homes and institutions of benevolence operated for poor and deserving people. During the past year no less than 244,898 beds have been provided for women, and 201,480 women have been permanently aided and watched over. The commissioned workers visited and aided no less than 25,549 families—principally in the poorest sections of the cities. In the different homes 322,067 lodgings were provided, \$20,072 free meals were given and 1,230,175 meals served to persons who paid for them by doing manual labor.

Through the fresh air branch many thousands of mothers and little children have been taken from crowded cities for outings in the country. A hospital has been located in New York, which handled during the year 1418 ambulance calls, 430 major operations, 11,713 day treatments and 9435 dispensary cases. Excellent work is being done through the Volunteer Education League, the reading rooms, sewing classes and other undertakings.

The Volunteers of America was incorporated in 1896 and is an organization distinct from the Salvation Army. The principal officers are General and Mrs. Ballington Booth, General Edward Fleming, Colonel Walter Crafts and Colonel James Merrill.

PARLOR TO PICNIC

Piedmont Parlor, N. D. G. W., will hold its annual picnic next Saturday, Neptune Beach having been selected as the scene of the festivities. It is expected that many local parlors will assist in the affair. Dancing has been arranged for. Mrs. J. W. Realy is chairman of the affair.

KRYPTOKS

Combine both distant and near vision in one lens and are so perfect in their construction that no person looking at you cannot tell you are wearing them.

THE WINKING EYE

You Too, Will Marvel

At The DUO ART PIANO

Daily, the following scene takes place at Sherman, Clay & Co. A visitor, possibly in search of the right piano for his home, or possibly moved simply by curiosity to see this new instrument, is taken to the Duo-Art Salons.

He sees before him a group of beautiful, though conventional appearing pianos, both Grands and Uprights. On their "fall-boards" he sees names distinctive of high musical quality (Steinway, Weber, Steck, Stroud).

The demonstrator runs his fingers over the key-board, or perhaps plays for a moment. So far, nothing distinguishes the instrument from a regular piano-forte. And then a veritable miracle occurs. With a slight

movement the demonstrator slides a panel in the front of the instrument, inserts a music-roll, pulls out a little knob, and the piano begins playing.

Here and there over the keyboard, the keys ripple like dancing wavelets on a lake. Now they fall softly as thistle-down—now crash resounding chords with the vigor of man-fingers of steel. The listener is astounded. He is hearing such piano playing as only the great master-pianists of the world achieve. And small wonder, for it is the playing—the veritable personal performance of one of the great artists, true to the minutest detail of execution and expression.

Then another kind of music-roll is inserted and the demonstrator takes his seat at the instrument. Again drawing out the knob, the music-roll begins moving. With his fingers on several little levers, the demonstrator shows how, by their simple manipulation, all shades of musical expression can be imparted to the selection.

Without pedaling (for the Duo-Art Piano is electrically impelled) he plays—now fast, now slowly; now loud, now softly, putting his own expression into the music.

Dealers in Steinway and other Pianos, Pianola Pianos, Victrolas and Records, Player Music, Ukuleles, Musical Instruments, Sheet Music.

STATISTICS OF DRAFT COMPILED

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

WASHINGTON, Aug. 22.—A full statistical report on the operations of the draft law will be prepared by the provost marshal-general's office as soon as the mobilization of the first increment of 87,000 men of the national army has been completed.

Pending the preparation of the report and careful analysis of the conditions it discloses, the steps toward calling a second increment to the colors will be taken. General Crowder said today that the call for the second increment never had been considered at any conference at which he was present, and that he had no indication that it had been taken up in any way by President Wilson or Secretary Baker.

Training facilities already are taxed to make ready for the men now available, and it is regarded as unlikely that organization of an additional 500,000 men of the national army can be begun until the early spring of 1918.

It is possible that some provision will be made whereby all the sons of one family will not be taken. A new definition of the status of married men may be made of the things acted upon. President Wilson's recent letter to Senator Weeks is taken by many to indicate a feeling that a more liberal policy may be found desirable. At present, under regulations a condition of actual dependency must be established to obtain exemption. The condition of marriage in itself is not considered. Another matter to be worked out is the status of aliens.

FATE PLAYS CARD

Fate played against Arthur G. Gum of Piedmont when it prompted him to deed a fine home in the foothill district to Miss Agnes W. Kelly whom Gum is said to have been unable to wed because of certain legal restrictions due to a past marriage which cropped up out of the past. Then Miss Kelly committed suicide. Her death introduced an unforeseen contingency into the situation.

Miss Kelly's brother, Patrick J. Kelly, was next of kin under the probate in the Gum residence went to the brother with Miss Kelly's death. Gum was willing that the brother idea was no part of his romance.

Accordingly Gum instituted suit to retain possession of the property in question. But Superior Judge Conley awarded the property to Kelly. Gum was allowed \$150 by the court for work done on the premises.

'ON TRIAL' THRILLS

A play of great power and splendid purpose, telling a story of dramatic eloquence and force is that of "On Trial," film version of the great drama, which opens at the New T. & D. Theater today.

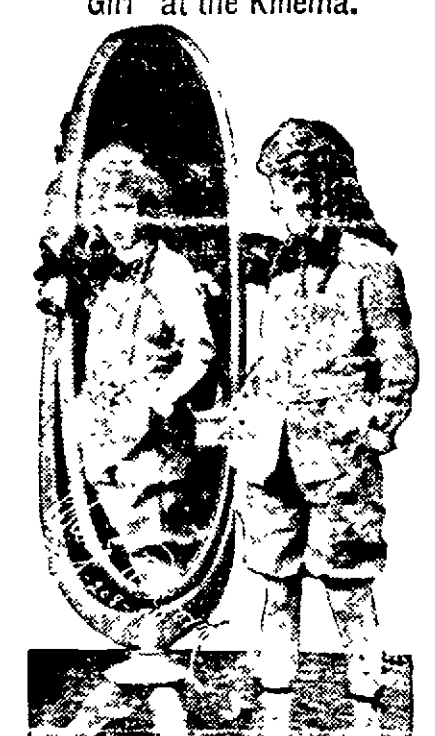

"On Trial" is full of excitement, suspense and intense interest, dealing with one, Robert Strickland (Sidney Ainsworth), who is accused of murder, and in the belief that his wife is implicated in the affair, refuses to make any statement to the jury.

RAN ASHORE; FREE

AN ATLANTIC PORT, Aug. 22.—The British steamer City of Lahore, from an Oriental port with 53 passengers, ran ashore in a fog off the New England coast today and later floated without mishap. A radio message from the vessel stated that she was proceeding on her voyage.

MARY PICKFORD TALKS TO PARENTS

In Famous "Poor Little Rich Girl" at the Kinema.

Little Mary scraps with the kids, and goes down deep into our souls as a famous little rich girl, at the Kinema of this week.

How often have we wondered what our youngsters are thinking about, and how often have we been surprised by their actions. Now, how often have we been surprised by their actions. Now, how often have we been surprised by their actions.

To make the plot the more convincing they have starred little Mary Pickford as the little maid, whose every day American parents were so, so very busy. Far from a preachment the play develops into a comedy that when finished sinks down deep into the depths of our minds, there to rise as recollections worth remembering.

The Kinema has found this play of such worth that they are playing it for a full week. A fine Holmes trip to Madras and Madrid, a Keystone and a Weekly complete the program.—Advertisement.

Men Are Passed in Short Order No. 6 Board Expedites Its Work

One hundred and thirty men were examined by local board division No. 6 this morning, twenty-eight men being secured for the new national army who were physically qualified and did not claim exemption. This is the second day of this district's supplementary draft call, which will be completed with the examination of 135 men tomorrow.

The efficient system of handling the drafted men evolved by this board enables it to examine as many men during the morning hours as most of the other boards have been handling in a day. No man is detained in the examination rooms more than fifteen minutes and many are through in less than ten. Everything possible for the comfort and convenience of the men has been thought of and provided for, from stoves in the dressing-rooms to a check-room for valuables.

Those physically qualified and waiving exemption in this district this morning were: Arthur Klopfer, James Alexander, Dolg, Joseph E. Teck, Charles Arthur Baker, Olaf Sorenson, Joseph Robert, John Francis Raleigh, Fernand Ostaus, William Beveridge, Lester F. Stone, Joseph Santos Sousa, John A. Petty, Fred Graf, Herman Christian Hermanson, A. A. Medlenka, Charles W. Peterson, John Henry Behrens, John Francis Raleigh, Joseph Aloysius Pedro, Joseph Frank Rusting, Helge Nicolaus Peterson, Felix J. Horta, Daniel Boone Mann, Joseph C. Silveira, Ernest Bishop Falar, Charles P. Ingham, John F. Lyman, Arthur J. Slaght.

CLAIMS NOT GRANTED. District No. 6 has certified the following men to the district board as qualified for military service, their exemption claims not having been granted: Charles Parker Webster, Salvador C. Caruso, Frank Duarte, Lewis Robert Bruce Donelson, Maurice Silva, Joseph E. Higgins, Maurice Sterner Anderson, Joseph Frank, Frederick Wells, George Henry Lemmon, John Rose, Roy Albert Goss, Peter Lucien, Frederick W. Gehrig, Walter J. Barber, Albert J. Lawrence, Walter Sam Kerr, Alexander Barber, Octave Peter Lewis, Isadore Robinson.

The following men have been granted exemption by local board division No. 6: Edward A. Fenkel, Edward Brand, John L. Romine, John H. Stover, Walter Joseph Dracoli, Edward James Galvin, Carl John Svenson, Henry F. Boecker, William G. Harlan, Roy Caldwell, Harry Boeder, Charles E. Edwards, Miguel Vital, Francis D. Walsh, Henry Enoch Swanson, Thomas S. Burnside, Frank Joseph Rodgers, Walter D. Ford, Anthony J. Sarmiento, George D. Hack, William E. Lusk, Joseph J. Haesop, William H. Pearson, Clyde E. Elstrom, Orval E. Craig, Manuel Silva, Albert Anderson, George H. Cockerton, Oscar Inzels, Victor Traverser, Arthur Mansfield, Manuel C. Casillas, Eugene D. Hildebrand, Walter W. Galt, William T. McSorley, John A. Hamilton.

Local board division No. 2 has certified the following twelve men to the district board as physically qualified for military service, their exemption claims not having been granted: Joseph Barraco, Constant H. Robinson, Tony Joseph Souza, John Arthur Smith, Eugene Campomonte, Carl Vincent Henrich, Frederick Wilhelm Raymond, Harry Midelev, Allison, Raymond E. Luttrel, Anthony Vollers.

FREED FROM SERVICE

The following have been exempted or discharged from service by District No. 2: John J. Kito, Edward K. Rogers, Cecil Clyde Gardner, James E. Bradley, Byron Metzler Taylor, Frederick W. Dingwell, Frank Reis, Otto C. Kellher, Herbert W. Erskine, Mario Brullespelt, Mario Asola, Thomas Antonio Viera, Frank J. Hunt, Albert S. Cherry, Maurice Shanahan, Earl L. McCargar, Harold Dewey Pea.

Things That Happened in Draft Circles

SPRINGFIELD, Ill.—Young men of Illinois, drafted into the national army, will be made to feel the appreciation of those who remain at home when mobilization of the first quota takes place September 3. In a proclamation, Frank O. Lowery, urged public meetings on or before this date in every part of the state where the people may show the selected young men "that the gratitude, admiration and the prayers of Illinois will accompany them wherever they may be."

BAKERSFIELD.—Forty-four hours after the family of C. W. Wellman had become on record on the work of Chester Wellman age 24 selected for the national army, the son was killed in an automobile accident.

TOMS RIVER, N. J.—George J. Gould Jr., of Lakewood, N. J., appeared before the draft exemption board here today and was rejected as being physically unfit.

LOS ANGELES.—Fear of the draft is held today to have caused the suicide of William Henry Hagel, whose body was found in a local hotel with a bullet hole in the head and acid burns in the mouth.

NO RECIPROCITY

CHICAGO, Ill., Aug. 22.—Judge Evans of the United States Court here, continued the order of the Interstate Commerce Commission declaring invalid the usual provision in the contracts between the railroads and telegraph companies, by which free service is given on both sides. The commission decided that the telegraph companies must pay for the railroad service and the railroad company must pay for the telegraph service notwithstanding any contracts.

Judge Evans, in a suit brought by the Postal Telegraph Cable Company against the Chicago Great Western Railroad Company, decided in favor of the railroad company. This decision is of far reaching importance in the relations between the railroads and the telegraph companies.

FELONY CHARGE IS BAR TO DRAFT?

Can a man held on a felony charge be arbitrarily drafted into the national army to escape a prison sentence? Sheriff Frank Barnett is waiting today for an official opinion on the question in order to determine if August Lehnus can legally be sent to the first army concentration camp.

Lehnus was arrested July 1 on a charge of highway robbery and was remanded to the custody of the sheriff to await court action and trial. He was taken yesterday before the exemption board at 3215 East Fourteenth street for examination and was passed.

Assistant District Attorney James K. Ford expressed the opinion this morning that Lehnus could not be drafted into the army without having the charges against him dismissed, and he offered little hope for this being the case.

Lehnus is said to be a strong one and the charge to serve and claimed no exemption.

Assistant District Attorney James K. Ford expressed the opinion this morning that Lehnus could not be drafted into the army without having the charges against him dismissed, and he offered little hope for this being the case.

Forty Couples in "Casualty List" at Berkeley Institution

BERKELEY, Aug. 22.—Cupid and Mars, hand in hand, have leveled the University of California and forty couples is the casualty total for the institution.

Faculty members and prominent students, co-ed social leaders and sorority girls are among the victims. Most of them were married before the draft—in fact a large proportion of the brides are "war brides."

The term's matrimonial ventures are as follows, according to the compilation by the recorder of faculty:

Katherine Clancy '16 and Luther N. O'Neil '16. Miss Clancy is an Alpha Delta Phi member. O'Neil is a member of the Phi Kappa Psi.

Elmer Boyle '16 to Clifford Nichols '16. Miss Nichols was a sophomore reporter on the Daily Californian and a member of Delta Zeta.

Randolph Nickerson '18, a Zeta Psi, to Miss Lacy Moore '18, a member of the Phi Kappa Psi.

Pauline Adams '17, a member of Kappa Alpha Theta, to Thomas M. Dargie '17, a member of the Phi Kappa Psi.

Ruth Smith '17, a member of Kappa Alpha Theta, to Thomas M. Dargie '17, a member of the Phi Kappa Psi.

Adrian Young '19, a Zeta Psi, to Ruth Smith '17, a member of Kappa Alpha Theta.

Ruby West '20 and Robert Witherspoon '20, a member of Kappa Alpha Theta.

Marie Graham '17, a member of Kappa Alpha Theta, to Robert Witherspoon '20, a member of Kappa Alpha Theta.

Helen Olmstead '18, a member of Alpha Delta Phi, to William Brown '18, a Psi Upsilon.

Adrian Applegate '20 to Adrian Cameron '20, a member of Kappa Alpha Theta.

Tracy Sider of the andology department.

Gertrude Gloane '15, an Alpha Xi Delta, to George Korte.

Virginia Marsden '18, a Delta Gamma, to George Korte.

BAKERS WILL CONVEGE. ATLANTIC CITY, N. J., Aug. 22.—It was announced today that the American Bakers' Association will hold its annual convention here the week beginning September 24.

MARRIAGE LICENSES. KARLSON-WALBERG—Eric H. Karlson, 28, Berkeley, and Clara C. Walberg, 35, College Hill, Ohio.

LEACH-WATERS—Roy E. Leach, 25, Oakland, and Helen Waters, 18, Oakland.

CONWAY-ELLISON—Robert M. Conway, 23, Oakland, and Hazel Ellison, 22, Oakland.

QUINN-BROWN—William C. Quinn, 35, Oakland, and Alice Brown, 34, Kansas City, Mo.

RAIMON-EDWARDS—John Raimon, 34, Irvington, and Miss Leonard, 18, Irvington.

SOLANO COUNTY LICENSES. MAELFREN-LINDSAY—Raymond Maelfren, 21, and Ruth Bonnie Lindsay, 18, both of Piedmont.

CONTRA COSTA LICENSES. McCREERY-LEAVITT—Patrick J. McCreery, 35, and Sophie Leavitt, 35, both of San Francisco.

PERMANENT STREET WORK PREVENTED

Contradicting the assertion of the city administration that the San Francisco-Oakland Terminal Railway has no valid excuse for not making permanent all the improvements it asks the council to sanction, General Manager W. R. Alben of the terminal company asserts that it is impossible because of war conditions to obtain the steel rails that are necessary for permanent in a statement submitted to the council. General Manager Alben says:

"We have delayed taking this matter up with you for the reason that we were not certain that the 350 tons of 9-inch 106-pound grooved girder rail, ordered in November, 1916, would be delivered as per contract, during the last of September, 1917.

"We are now advised that this shipment will not be made in the third quarter of 1917 and only a prospect that it may be shipped in the fourth quarter.

"The United States Steel Products Company, which is the manufacturer of the rails, are such that their orders are being given absolute preference and that the delay in the shipment of this material is due to conditions beyond their control.

CANNOT GET RAILS. "This leaves this company with only 154 tons of 9-inch 106-pound grooved girder rails on hand with which to do permanent track and paving during this fall and we believe that the best use to which we can put this rail would be to rebuild the track on Telegraph avenue from Broadway, near Sixteenth street, to Twenty-second street, where the city owns enough rail to cover that distance.

"Inasmuch as the rail on hand is not sufficient to lay on College avenue we would recommend that our company be allowed to proceed with semi-permanent work from Broadway to the Berkeley line. This class of work being possible owing to the state of rail now on the College avenue.

"We are also willing to proceed with semi-permanent work on the same style on West Sixteenth street from Market street to Peralta street, is approved by such approval and on the other hand streets where the contractors have their portion completed so that our company can proceed with its portion of semi-permanent work."

READY TO BEGIN WORK. "If the program of work, as set forth herein, is approved by the council, we will arrange to commence work on Telegraph avenue within five days after being advised of such approval and on the other hand streets where the contractors have their portion completed so that our company can proceed with its portion of semi-permanent work."

FOR RED CROSS. Postmaster Joseph Rosborough will be the speaker tomorrow afternoon at the tea which the members of the Manzanita School Mothers Club are giving for the benefit of the Oakland chapter, American Red Cross.

Scores of guests have been asked to attend at the residence of Mrs. A. E. Thurston. Miss Marjorie Miller, accompanied by Mrs. Alice D. Miller, will contribute the music.

DEATH TOLL HIGH

PARIS, Aug. 21.—Official estimates of the victims of the disorders throughout Spain, according to a Havas Agency dispatch, are as follows:

37 dead at Barcelona, 12 at Madrid, 328 at Bilbao, four at Nervá and one elsewhere. The number of wounded is more difficult to estimate, but it is believed there are 100 injured in Madrid and a larger number in Barcelona.

IN ONE ACCORD THEY SAID "CLEAN HANDS"

IS: "Clean Hands" approved at Bishop Playhouse—exciting story. Thomas Nunan, S. F. Examiner.

"On way to Broadway—a big two-act drama." Walter Anthony, S. F. Chronicle.

"Clean Hands" by Walter Rivers, is a big American drama—it is tremendous." The Spectator, Oakland Enquirer.

"Clean Hands" got over last night—Given a splendid presentation." S. F. Bulletin.

"A gripping play around a big human theme." C. E. Kunze, S. F. Call.

JAPANESE SEE U. S. IN WAR WORK

WASHINGTON, Aug. 22.—Japan received her first glimpse today of America at war.

For the first time since the opening of the world conflict official Japanese representatives, other than regularly accredited ambassadors, were in a war capital for conference with one of the powers making common cause against Germany.

The mission arrived today on a special train from San Francisco its port of arrival accompanied by a cavalry guard, the distinguished visitors were escorted in motor cars to their official residence by Secretary Lansing and other high government officials. While here the mission will stay at the home of Perry Belmont, a grandson of Commodore Perry, whose visit to Japan resulted in the opening of the country to foreigners.

Viscount Ishii, head of the mission, will call officially on Secretary Lansing tomorrow. The mission will dine at the White House tomorrow night and Friday will dine with the secretaries of state, war and navy.

NAVY PLAYS BIG PART.
Japan's navy has played a tremendous part in the world war. This became known by the simultaneous arrival of a Japanese mission to the United States in Washington.

"The Japanese squadron is all over the place," an intercepted German wireless message not long ago said. This is perhaps the greatest tribute that could be paid to the work that Japan's navy has been doing.

Great Britain has been relieved of all anxiety over Pacific trade routes, for Japanese destroyers and cruisers

WOULD BOLSTER NURSES' RIGHT TO GIVE ORDERS

AMERICAN TRAINING CAMP IN FRANCE, Aug. 22.—A strong movement is on foot here to obtain officers' commissions for the Red Cross nurses, similar to the system prevailing in the Canadian army. It is obvious that it is necessary for them to have power to command.

Up to date the soldiers have shown no disposition to disobey the nurses, but it is feared some contingents might arise where the orders will not be taken.

The first gas tests were held on Tuesday. It was to accustom the men to wearing the masks and helmets.

TO STOP SMOKING

AMSTERDAM, Aug. 22.—According to the Morgenpost of Berlin, the police in Germany intend to prohibit smoking in the streets in view of the decline of tobacco stocks. The prohibition will be extended to the whole of Germany.

have protected these trade channels, leaving British patrol vessels free to escort troops from Australia and New Zealand.

As the war progressed Japan's naval co-operation became of growing importance. Its development may be summarized as follows:

PATROLS THE SEAS.

Japan's first fleet was sent to operate between the Yellow sea and the northern part of the Eastern sea, while a second fleet was occupied outside Tsing Tau. In co-operation with the British the Japanese patrolled the Indian ocean and the bay of Bengal. Important missions have been undertaken by Japanese cruisers in the northern Pacific on several occasions at the request of the British government. Recently Japan sent a detachment of light craft to the Mediterranean.

The most recent movement is the despatch of fast Japanese cruisers to aid in the patrol of the coasts of Australia, New Zealand, South Africa, and transport routes over practically the whole expanse of the South seas and Indian ocean.

FORCE SHIP MEN TO FIGHT DIVERS

WASHINGTON, Aug. 22.—The Navy Department today took steps to compel American shipowners to co-operate in the task of combating German submarines.

It brought pressure to bear on the war risk insurance bureau, which insures vessels and their cargoes, and the Federal Shipping Board, which directs the war emergency fleet corporation, to compel vessel owners to make their ships as nearly non-sinkable as possible. If the plans, which have the approval of the construction experts of the navy, are approved the task of the German submarines will be made much more difficult. These plans are two-fold:

To divide the cargo holds into smaller water-tight compartments.

To make the ships capable of a speed of 15 or 16 knots an hour.

Dividing the cargo holds into smaller compartments would make it practically impossible to sink a vessel with one or two torpedoes. Only one compartment would be flooded if a hole were torn in the side of such a ship.

With ordinary freighter construction a fair hit from a single torpedo is bound to be fatal. Study of the submarine menace has shown clearly, naval experts declared today, that a vessel with a speed of sixteen knots an hour is practically immune from U-boat attack. Of all the hundreds of vessels sent down, a scattering few have been the faster ships.

GERARD SPEAKER

CHICAGO, Aug. 22.—James W. Gerard, American ambassador to Germany, until war was declared, stopped off in Chicago today on the first leg of a tour of the West to answer the question, "Why we are in the great war?"

AVIATION CAMP SITE TAKEN OVER

SAN DIEGO, Aug. 22.—Colonel Alexander Dade, commander of the Signal Corps aviation school here, has taken formal possession of North Island in San Diego harbor, as a permanent military reservation for the army and navy flying corps.

He did this under instructions from Secretary of War Baker, acting under authority of an act passed by Congress in July. The marine ways, which have stood on North Island for twenty-five years, were ordered removed, and Captain "Bob" Waters, known as the "Island" boy, and for a long time its only resident and voter, was notified that he must leave.

Plans already announced contemplate the erection of fine concrete structures to replace the present wooden buildings on the island.

PLAN NEW CAMP.

Revised plans for Camp Kearny in which national guard troops will be trained near this city were made public today. They call for the erection of 696 main buildings and 456 other structures, most of them small. The camp proper will cover five and a half square miles and an area of two and a half square miles will be devoted for maneuvering purposes.

A detachment of hospital corps men arrived at the camp yesterday. Captain C. C. Wiman, constructing quartermaster, announced today that contracts had been made for a million and a half feet of lumber for hospital buildings.

A great remount and breeding camp will be established at Camp Kearny, Linda Vista, according to word received at the cantonment today from Washington. Twenty thousand horses and mules, double the number previously designated are to be quartered at the camp. The remount station will be permanent.

PLAN REMOUNTS.

Three quartermaster captains are in the Imperial valley and in the Pacific Northwest purchasing horses and mules for the remount plant. Some fine blooded animals for breeding will be bought. It will cost several thousand dollars a day to feed the animals. Buildings for the station will cost \$100,000.

A telegram received here tonight announced the death at Ensenada, Lower California, today of Otto Vanzell of Pasadena, Cal. The newspaper said he was thrown from a horse and instantly killed. Vanzell was operating a large ranch near Ensenada. He was 33 years old and left a widow and a child. The remains will be sent here.

GERARD ATTACKS ENEMIES OF U. S.

CHICAGO, Aug. 22.—"It is better to be fighting in France than around Chicago," James W. Gerard, Sir James, Knight of the Bath, by grace of the King of England, said today in attacking persons who object to the sending of American troops to France.

It was Gerard's first trip west since his recall as ambassador to Germany at the outbreak of the war and he was compelled to call off two engagements—one to speak before the Chicago Association of Commerce this noon and another at Lake Geneva, N. Y., tonight, because of a sudden attack of lumbago.

"The Kaiser gets reports of bickering and wrangling in this country. In fact, he gets little of anything else," said Gerard, "and all these things are just what he wants. They are spread through Germany and they place us in a false light."

"Folks who hamper the government by talking peace terms and other untimely things are putting obstacles in the way of the administration that two or three months of fighting will be needed to overcome."

"Does this apply to the United States Senate?" he was asked.

"It applies to every son-of-a-gun in the land," he exclaimed.

OIL LAND BILL BEFORE SENATE

WASHINGTON, Aug. 22.—Providing for the opening up to development of hundreds of thousands of acres of proved oil-bearing lands withdrawn from entry by the famous Taft order, the oil bill agreed on by all the Senators interested save two has been reported to the Senate.

A minority report will be issued by Senator Husting of Wisconsin, which will probably be signed also by Senator Norris of Nebraska. It is estimated that the opening up of these oil lands will increase the country's oil production not less than 15 per cent, which means not only an increase of that amount of fuel oil for the navy and for commercial purposes but a like increase in the production of gasoline.

CORONER QUILTS

SAN FRANCISCO, Aug. 22.—After many years' service as coroner of this city, Dr. T. W. B. Leland has resigned his position and is now with the United States Naval Militia on the battleship Oregon somewhere in active service. He will be succeeded by Dr. John G. Galt, a personal friend, who has been appointed to the position by Mayor James Rolph Jr.

It is understood between Leland Galt and Mayor Rolph that at the conclusion of Dr. Leland's service with the Federal government, his successor will resign if he so desires it and pave the way for his reappointment. The mayor yesterday acknowledged Dr. Leland's resignation with a personal letter in which he paid high tribute to him for his service in the interests of the city, and for his patriotic act in serving his country in an hour of need.

Dr. Leland holds the rank of lieutenant-commander in the navy.

DON'T YOU FRET, LET US DO IT

Why fuss with making pastry or cakes for dessert? Aside from the possibility of their not being satisfactory to you, there is the bother and expense of preparation. Lehnhardt's Ice Cream Bricks for dessert do away with this and the cost is so low you wonder why you have worried over dessert all this time. Quart Ice Cream specials for 80c, delivered naked in ice. Phone Oak 496.—Advertisement.

SUPPLIES TO RUSS

WASHINGTON, Aug. 22.—In response to an urgent request from Dr. Frank Billings, head of the Red Cross Commission to Russia, the American Red Cross is sending a large quantity of medical and surgical supplies to meet the urgent needs of the Russian military hospitals. This supplements an earlier consignment which was forwarded for immediate use when the commission called to investigate the Russian situation.

The commission carried with it \$290,000 worth of such material, including among other supplies over fifty microscopes and 45,000 slides 4500 clinical thermometers.

TO TRAIN GUARDS

EL PASO, Tex., Aug. 22.—Following a banquet in his honor at the Chamber of Commerce tonight, Major-General George Bell Jr. will leave for Camp Logan, at Houston, to take command of the Federalized Illinois militia and train them for overseas service.

Army officials here say the Illinois troops would be either the first or second militia organizations to leave for France.

288 operating knives, 23,000 lengths of (cigar) 1000 ke caps, 175,000 morphine sulphate tablets and 200,000 antiseptic

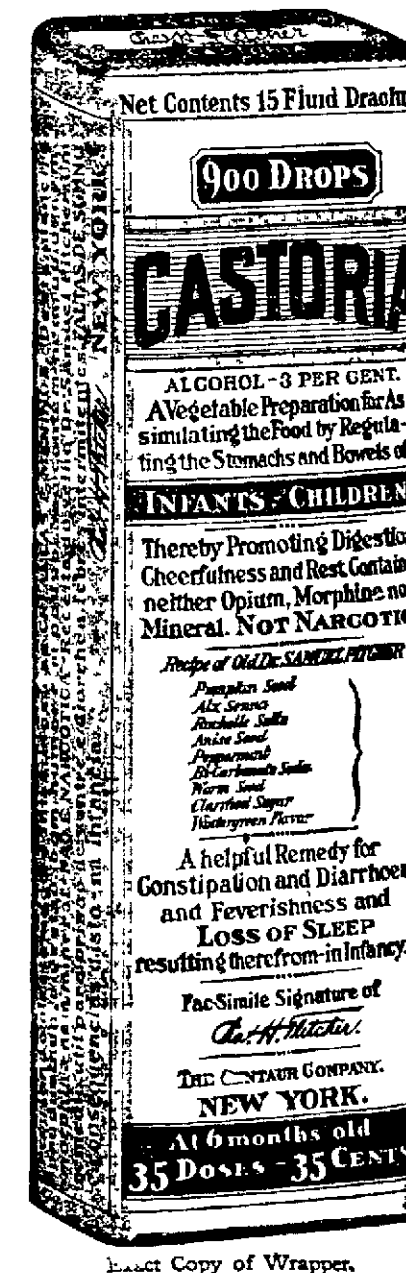

JURIST IS ILL

SALT LAKE CITY, Utah, Aug. 22.—Judge C. C. Goodwin, 55 years old, editor and author, and for twenty years, from 1880 to 1901, editor-in-chief of the Salt Lake Tribune, is critically ill at his home in this city and is not expected to live. Judge Goodwin was identified with the early mining days of California and Nevada. He was elected one of the first district judges when Nevada was admitted to statehood.

What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the Signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-Good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. Albert W. Kohl, of Buffalo, N. Y., says: "I have used Castoria in my practice for the past 25 years. I regard it as an excellent medicine for children."

Dr. Gustave A. Elsengraeber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. D. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Duchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. L. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. E. Eskildson, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

Society News

Christmas in the trenches promises to be the fate of many a man who loves even as dearly as his wife or mother the big family gathering with the national bird and the mince pie and the sparkling tree with its burden of remembrances. Everywhere there is a feeling of what Christmas is going to mean to the men who know and the men whom they do not know who are fighting in the same cause. Busy hands are making "comfort bags" filled with an array of small trifles, carefully tied in red ribbons and holiday paper—simple things which will spell cheer and thoughts of home and a bit of personal comfort. But hurry is the slogan. The time is uncertain and the way is long and the red tape must be unwound before Christmas gifts can reach the hands for which they are intended. For that reason the next few weeks will see thousands of the Yuletide. Everywhere are the gifts being made or bought or collected by individuals or clubs or neighborhood groups. So does the holiday flurry promise to be an extended one.

Mrs. William Roberts Barlow is closing her attractive home in Bakersfield and is coming to Oakland to remain indefinitely as the house guest of her parents, Mr. and Mrs. Engelhardt. The Barlow bungalow in the south has been one of the happiest which the girls of the smart set have established away from town. The young couple took possession of it shortly following their wedding on St. Valentine's Day and have entertained as their house guests many of the younger girls from about the bay. But Barlow has been called to the colors and is leaving with the beginning of September. So his interesting young wife, who will be remembered as Miss Anne Engelhardt, is coming to be with her home people while he is away fighting for his country.

One of the most elaborate bridge teas which the early September will give is that for which Mrs. Frank Butler and her daughter-in-law, Mrs. Ralph Butler, will claim guests at their attractive residence in Linda Vista. A large number of cards have gone out for the delightful affair.

Miss Lucy Pierce will be welcomed home with the opening of the coming month after a several months' sojourn in the Hawaiian group. Miss Pierce has been extensively entertained as the house guest of friends who did much to make her time in their midst to be happily remembered. Although Honolulu and its surroundings lend themselves so wonderfully to the beach, Miss Pierce decided that she needed a vacation and really did little in the way of painting.

Mrs. Hiram Hall was a hostess of yesterday, providing a "war luncheon" for the little coterie of friends who are foreign to this year, as they have all summer, to give up the day to Red Cross sewing. For several winters these same friends have been assembling occasionally about the card tables, but with the outbreak of the war and the beginning of the vacation season laid aside their pleasures for the sterner duties which were assigned when directed by the national Red Cross. Perhaps it was the pioneer bridge club to make the innovation, but it is being followed by a whole procession of the gay little organizations who are choosing service rather than fun in the coming weeks.

One of the interesting announcements which come from the south tells of the betrothal of Miss Helen Wallace and Ralph Davis. Miss Wallace, daughter of former Lieutenant Governor A. J. Wallace and Mrs. Wallace, is a charming girl who claims many friends in Sacramento, where she was popular with the younger set during her father's term of office. She is a student in the University of Southern California and a member of the Kappa Alpha Theta Fraternity. She was honored by being elected last year to the presidency of the associated body of women students. Her fiancé is the son of Rev. J. A. Davis of Hollywood. He has gone into training that he may take an active part in the war relief work of the Young Men's Christian Association. He is leaving for the American lake camp

to take up duties as one of the secretaries under the Y. M. C. A.

It will be a simply appointed house ceremony at which tomorrow evening Edwin Stevenson Thomas will claim Miss Helen Wallace as his bride, with the MacLise residence in Linda Vista as the setting. The wedding adds another to the growing list of "war brides" who will accompany their husbands to the American lake camp. Thomas, who is the son of Professor W. Scott Thomas and Mrs. Thomas of Berkeley, has received his commission as first lieutenant and been ordered to the big training camp. Miss MacLise is a graduate of the University of California and an Alpha Phi sorority girl. She belongs to one of the pioneer families in Oakland.

Mr. and Mrs. Rufus Steel are an interesting couple who have been spending a part of the summer in California, where they have been widely feted. For the past few seasons their home has been made in New York where Steel has achieved honors among the men and women who are contributing to current literature. He has given his attention partly to scenario work, with some notable results, and partly to the pen. Author of a previous play he arrived in California in time to be present at the high jinks of the Bohemian Club and was made much of by his club brothers.

The Steels are returning to New York early in the coming month. Just at present they are across the bay, but will return to this side again for a little visit before starting across the continent.

Mr. and Mrs. R. J. Long, with their son, Carl Long, and attractive daughters, Miss Sara Long and Miss Vida Long, who last year occupied the William Howard Haynes residence in Claremont during the family's absence on the Atlantic coast, are staying for a few weeks at the Shattuck. Later they are planning to lease a Berkeley house, for the winter at least. Since coming to the bay cities the Longs have found many friends, who have given them a most cordial welcome to their midst. Long is one of the widely known mining and lumber men in Mexico, where he has large interests. They have a picturesque place in Mendocino county.

Mrs. Patricia O'Connor Henshaw surprised her family early in the week by coming up from the south to pay them a little visit. She remained in Oakland but a day or two before leaving again with Mrs. Grace Tubbs Henshaw for the Santa Cruz mountains, where she will carry a brief while in the charming summer place near Ben Lomond. Miss Charlotte Canby, her aunt, accompanied her north, remaining as the house guest of her sister, Mrs. Charles O'Connor, for a week or so. Both popular women are receiving a cordial welcome from their many friends, with a number of informal commitments being offered them. Miss Canby has achieved recognition as a writer of clever stories, having a book or so to her credit. While her literary work has been done in leisure moments, it has been none the less interesting. Since going south to establish her permanent residence Mrs. Henshaw has been warmly welcomed by the smart set and the musical colony. Some of the most delightful benefits of the year have

been arranged and participated in by the beautiful Oakland girl, whose voice and sense of story-telling has made her a unique figure in the concert field of the coast.

Mrs. William E. Colby will open her handsome Berkeley residence for one of the interesting sorority ceremonies of the new semester, the women of the Gamma Phi Beta assembling about the prettily planned board. Students who are prospective members as well as graduate members are being included in the invitation for the elaborate function. Mrs. Colby is one of the well-known Gamma Phi Beta girls. She has been a leader in women's clubs, holding many important offices within their gift and doing much since suffrage was won in obtaining laws on behalf of women and children.

Mr. and Mrs. George S. Ritter sailed yesterday for the Newport for South America, where they will spend an interesting honeymoon. The marriage of the young Napa businessman and Miss Blanche St. Pierre, daughter of George St. Pierre, was a pretty ceremony of Saturday evening, taking place at the St. Pierre residence in this city and witnessed by a little company of close friends.

ENGAGEMENT ANNOUNCED.
The engagement of Miss Louise Fenton Huntley and Richard Henry Chamberlain Jr. was announced today. The bride-elect is the daughter of Mr. and Mrs. Dwight B. Huntley. Both the Huntley and Chamberlain families are representative of the pioneer families of Oakland. Chamberlain, who was a member of the officers' reserve training camp at the Presidio, received his commission and has been ordered to the American Lake post. He is leaving within a few days.

PLAN GARDEN FETE.
A garden fete will be held at Our Lady's Home in Thirty-fourth avenue on the afternoon and evening of Monday, September 3. The Sisters of Mercy and their friends are planning to make the early fall entertainment an elaborate one. A special program of music will be provided with other features which go into the making of an interesting day out of doors. A large number of prominent women are assisting in the preliminary arrangements.

PALESTINE, THEME.
Dr. M. Scheinkin of Russia and Palestine will speak before the Oakland Zionist Society tomorrow evening at room 207, Pacific buildings. Sixteenth and Jefferson streets. Dr. Scheinkin has devoted a great part of his life to practical work in the colonial development of Palestine, and is now associated with the Zion Commonwealth, which is being formed in order to build up Palestine on a business basis. He is touring the country to interest the Jewish people in this work. Dr. Scheinkin is also an eminent orator and author in the Jewish language. The public is invited to attend.

SERVE ICE CREAM TONIGHT.
The children enjoy Lehnhardt's ice cream and note the pleasure on their faces when you serve it for dessert. Special ice cream trucks in quart sizes for 80 cents delivered packed in ice, or 50 cents if you call at the store, 1313 Broadway. Phone Oak. 496. Advertisement.

'FARES' HOLD UP LOCAL CHAUFFEUR

With a revolver pressed against his back, C. B. Schaefer, an automobile driver, was forced to drive from a lonely place on the Tunnel road early this morning to Twelfth and Jefferson streets, by two men who had hired his car and robbed him of his purse containing \$1.75. A larger sum was overlooked by the highwaymen in their hasty search of the driver.

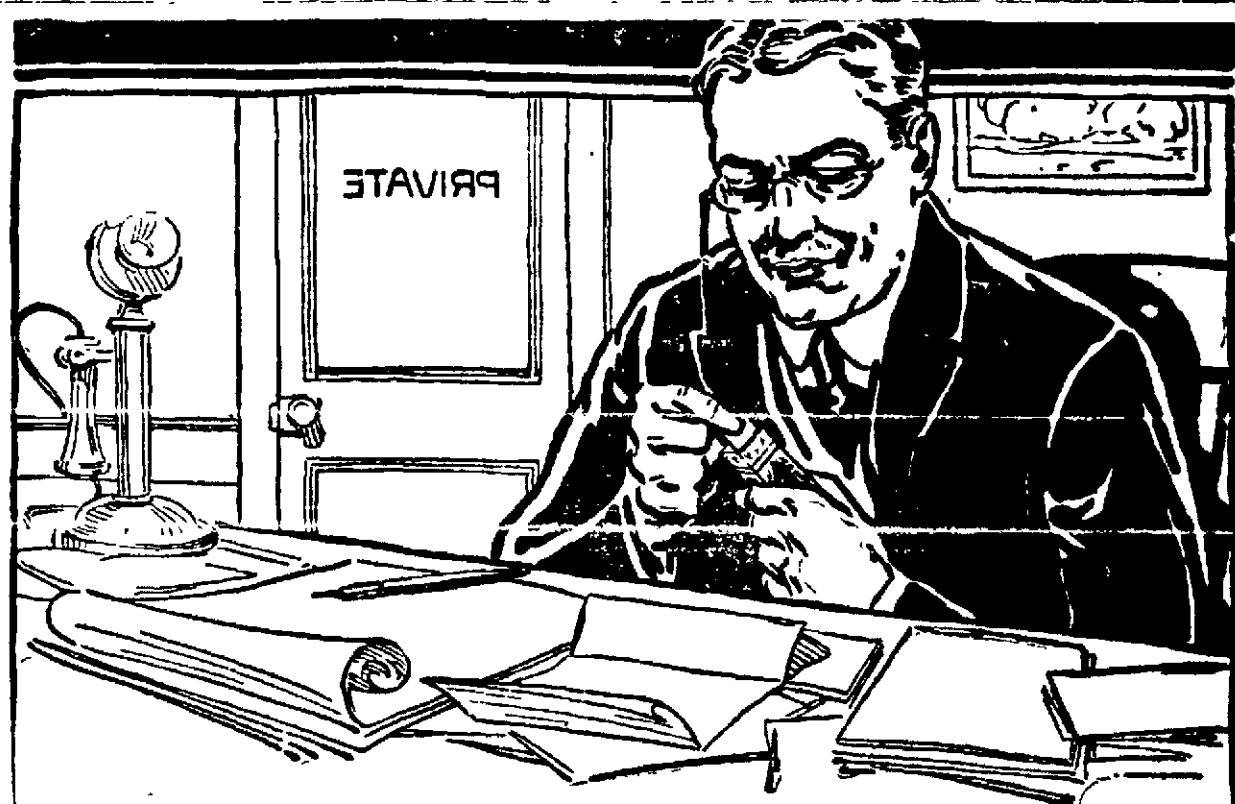

Schaefer was engaged by the men who approached him at his stand at 1207 Broadway to drive them to a resort in Emeryville. Leaving there they asked him to drive out the Tunnel road, where they shoved a revolver in his side and relieved him of his money.

The two men then demanded that he take them back downtown, and at Twelfth and Jefferson streets they jumped out of the car and ordered him to drive away. Schaefer went directly to the central police station and Corporal Herman Rumetsch and Patrolman Fitzgerald entered his car and went through the streets searching for the robbers, but no trace of them was found.

REPRISAL SOUGHT

SACRAMENTO, Aug. 22.—Lonley, a negro, declared in his petition to the governor that his conviction for three days was based on a confession obtained from him through the third degree police for refusing to admit his guilt.

THE BEST PEACE ANSWER.

The most satisfactory response which the entente allies can possibly make to any peace plan marked with the iron cross is now being voiced upon all western battlefronts. The men and material of battle are being employed with unprecedented energy all the way from the English channel to the Swiss border and all along the Austro-Italian frontier. The Teutonic forces are being compelled to give ground in Flanders, around Lens and St. Quentin, along the Chemin des Dames, at Verdun and in Alsace and Lorraine. Austrians have yielded to the Italian attacks.

The several actions which obviously synchronize with one grand plan of assault may not result in a decisive victory within a few days or a few months. But they are the spirit and the heralds of victory. They signify that the allied forces now are able to accomplish whatever they plan against the enemy within a measurable time and with a given cost. That is, the invincibility of the German arms has long since become a myth. Men, guns and artillery in sufficient number and strength will in time force the central powers to yield completely.

The allies are superior in man strength and will be so to a preponderant degree when America's armies are on the battlefield. Their resources of supplies for artillery and ammunition, for airplanes and transportation facilities, are ample. The situation on the Russian front is better than it was under the reign of the czar and the Sturmer ministry, for now there is no danger that Russia will conclude a separate peace.

Therefore it is only a question of time, industry, perseverance, sacrifice and patience. Civilization is equal to the job. The people at home, old men, women and children, will have to do their part as well as the soldiers on the firing line, but ultimate victory cannot be denied if all do what their country expects. When peace terms are discussed the allies will have demonstrated their superiority and their ability successfully to defend freedom-loving peoples against any assaults Prussianism may now or in the future attempt.

THEY SHOULD KEEP FAITH.

At its meeting yesterday the County Board of Supervisors took up consideration of practical plans submitted by the County Institutions Commission for reforms and betterments at the county infirmary and hospital. These plans were submitted in accordance with the authority granted by the supervisors when it was resolved that this commission should be given full power to administer the county hospital system. They involve requests for necessary appropriations of public money.

The supervisors did not grant the requests with that readiness which was expected of them.

The voters and taxpayers of the county expect the supervisors to keep their faith with this commission of experts. It having become impossible for the people to have any confidence that the hospital system would be properly conducted under the old methods, they have transferred their hopes and confidence to the non-political commission. The members of this commission fully merit the public confidence, as they do the full and ungrudging support of the supervisors.

TWENTY YEARS OF SERVICE.

Retirement of Mr. G. B. Daniels as an Oakland publisher is deserving. THE TRIBUNE believes, of more than passing notice. During the twenty years that he directed the affairs of the *Enquirer* he gave ample proof of an always earnest desire to promote the interests of this community, and he displayed a capacity for assistance in public upbuilding which has placed the residents of Oakland under a heavy debt of gratitude.

Mr. Daniels is first of all a loyal, industrious citizen of Oakland and California, and while he owned and published the *Enquirer* that newspaper was a daily record of his high conception of the duties of citizenship. He was one of this community's strongest defenders against assaults upon

its welfare, from without and from within, and one of the most willing promoters of the common interests.

In any new activities he may enter, Mr. Daniels will continue to have the best wishes of his many friends, including THE TRIBUNE.

SHALL WE MAKE IT TRUE?

When a group of ambitious politicians a few weeks ago organized a revolt against the Chinese government the women of China published in all the newspapers an appeal to the politicians and statesmen to compose their differences. This appeal is a most interesting commentary on the mental attitude of modern woman the world over. She is peace-loving, but she is also patriotic, and she is wholly competent to sum up the situation in her own country in relation to world conditions.

After reference to the classic oracles of China and a direct supplication to the leaders of the revolt, the Chinese women cited the Japanese as lessons in patriotism. They said:

"It is their patriotism which binds them all together and makes them the paramount power in the East. Their officials do not hide themselves to their *kung kwans* and sit themselves down with a harem full of concubines to enjoy the pleasures of life. They would rather commit hari kari than to commit such sins against their country."

Then the politicians were reminded of the people of the United States in this wise:

"Again, let us turn to our more loved neighbor across the Pacific. The melting-pot of Europe, she has strained a hundred breeds and turned them out pure Americans imbued with a love of country which cannot be beaten. All this magnificent work in the space of one or two centuries. We are a great homogeneous race with a tradition thousands of years behind us, and yet we strain at the leash and are like so many broken strands loosely tied together. Oh, the shame of this selfish spirit! What doth it profit to be so greedy all for oneself? Does the Book not say truly, 'Vanity of vanity, all is vanity!' 'What doth it profit a man if he gain the whole world and lose his own soul?' That only is everlasting which pertains to the things of the spirit, and chief among these is love. Love of others, love of country, and love of God, these are the things worth having. Look at America! Her munificent charities have extended to the uttermost parts of Europe, Asia and Africa."

"Her voice is now to be reckoned with in the chief councils of the earth, and yet her people are so simple and true. They are the only people who have lived up to their ideals and we would do well to heed their friendly voice of warning, for after all they have always stood by us and tried to lead us in the right way. For America, love of country and love of God mean everything and it is because of that she has become great, powerful and beloved. Let us women of China follow in the footsteps of our more fortunate American sisters. Thus we will not by our extravagances become the stumbling blocks in the progress of our men. Let us be simple, work hard, have high thoughts, and send our men out to be true citizens of China. Ten million young men in America registered in one day to serve their country! May one hundred million Chinese be found ready to serve our country in a like fashion, and may two hundred million more be found ready to back these up by their moral support and their pocket books. A strong United China should be our aim with a people ready to do and dare. Thus only shall we be able to help China and to hold it."

Modesty should forbid us to acknowledge that the women of China have the correct idea of our virtues, but that does not prevent us from trying to justify, in however so small a way, their high estimate of American character. Especially the womanhood of America may gather inspiration from the simple encomiums of her Oriental sister.

A Japanese steamship line running to Capetown, South Africa, made Buenos Aires a port of call and immediately Argentina and the government of the Union of South Africa exchanged trade commissioners. An Argentine-South African steamship line is soon to be started. This is another proof that business begets business. Argentina and South Africa have many products they may exchange for their mutual welfare and the distance between the two countries is only half that from Buenos Aires to Europe or from Capetown to London.

One of the brightest days in the history of Coal-inga was that of last week when forty-two of her young men joined the United States Navy.

GOETHALS' VINDICATOR.

General George W. Goethals has behaved admirably since he quit the shipping board. He put at the disposal of his successor his experience and the information he acquired in office. He offered to serve the Government in any job in which he might be useful, and then he went about his business, content to let his record speak for him.

It is unfortunate for William Denman, whose elimination from the shipping board was accomplished by means of a request for his resignation written by President Wilson, that he has not seen fit to imitate the conduct of General Goethals. Under the circumstances now existing a profound silence would well become him. Indeed, he might by reticence contribute something to the progress of the measures adopted by his successor, Chairman Hurley, and by General Goethals' successor, Admiral Capps, to speed up the work which languished while Mr. Denman and General Goethals disagreed over what should be done. But Mr. Denman appears to consider his personality of more consequence than the serious task the United States has undertaken, and even the excellent example set by General Goethals has not induced him to keep his lips sealed.

With characteristic good nature the American people were willing to ascribe the irritating disputes which characterized the official association of General Goethals and Mr. Denman to an unfortunate incompatibility of temper, for which both were more to be pitied than censured. Mr. Denman now appears to be anxious to destroy that belief and to reveal himself as a person constitutionally unfit for important public office. General Goethals will be the gainer by the Denman indiscretions, unfortunately the only kalm, for the United States at large can expect no good from the opening of old quarrels.—New York Sun

NOTES and COMMENT

These restless days may help out the general food problem, and possibly may be good for the health, but it has not yet appeared that the butchers are enthusiastic over them.

Aluminum plants have established an alibi as far as I. W. W. or other incendiary cause of explosion is concerned. The one near at hand has blown up so often that it has established a reputation of doing so of its own accord.

The proposed purchase of the United Railroads by the city of San Francisco is a practical method of settling the strike that is in a way to prove ruinous to that city's peace, not to say its reputation.

The draft laws have been held to be constitutional by a Federal court. This country would have been in an interesting fix if the decision had gone the other way.

The action of the Railroad Commission in suspending the right of the city of Los Angeles to regulate its grade crossings raises a question of importance. It is whether a State body can suspend the functions of a municipal governing body. If the State has this acute power there is not much left for counties and cities in the way of self-government.

Steel has gone up so that it is impossible now to erect the State building in the San Francisco civic center, but not so that the architects find it impossible to wrangle over the design.

The allies will take the peace proposal under consideration, but they evidently regard the Kaiser as being too willing, to make the proposal as it has been presented, the real thing.

San Diego suffers. The rule that booze must not be sold within a half-mile of military premises shuts up many popular and handy places. A mule stable that greatly extends the radius is held to figure, and the dry zone thus is made to include much territory that has been aristocratically wet.

Death might well be personified by a grim figure crouching on the engine hood of an automobile. It had a rich harvest last Sunday.

Women have invaded many fields since the war began, and especially since this country entered it, the very latest being the messenger service. The disgust of the male species, heretofore enjoying a monopoly of that work, is hearty—it may be comical. For the messenger boy is generally unique in expressing himself.

On Monday the Federal Land Bank was started out on the road, for which it was created, but from which it was restrained for months by the squabbling of those who were put in charge. Under new management it is to have a chance to fulfill its destiny.

The Stockton Mail corrects itself. "That story in Wednesday's Mail of the effect that the American boy of yesterday is extinct, like the dodo, was not exactly true. Five kids spent yesterday afternoon paddling a leaky, home-made boat in the channel at North Sutter street while two smaller fry made mud pies along the bank."

The Stockton Mail interprets an orator: "We may not have interpreted his remarks correctly, but as near as we could follow a soap-box orator the other night, the average itinerant 'worker' would be content to shovel snow in the San Joaquin valley in August and pick fruit in January. Still others would be willing to go back to the farm if they could be given short hours, \$10 a day and let the farmers do the work."

SPIRIT OF THE STATE PRESS

Only on the cotton and corn growers' written order can a fund to meet the labor situation be raised in the Imperial Valley with which to bring in labor to harvest our crops. The issue is squarely before the farmer whose crop is at stake. All plans to raise funds more expeditiously have failed. Tuesday, August 14, has been set by Chairman A. D. MacKenzie, of the valley-wide committee, which is charged with the raising of this fund as the day when all cotton and corn men will be given opportunity to sign up. On that day scores of automobiles will canvass the valley. The agreement will be put before every cotton and corn man.—Holtville Tribune.

Everybody is pleased to note, of course, that the Southern Pacific has four millions on hand for a quarterly dividend, and that it is earning at the rate of 20 per cent on its big capitalization this year. If it had succeeded in putting across that horizontal increase of 15 per cent in freight rates it would have been in quite comfortable shape.—Santa Rosa Republican.

It is remarkable the number of missing brothers and sons who are being discovered by the draft. Almost daily some such case is reported. A remarkable feature in many instances is that the lost relative is discovered by having lived for years near those who sought him, but who never came across him until in some way his name was published in connection with the draft.—Eureka Standard.

D. A. Cashin, the well-known attorney, was appointed Wednesday by Governor Stephens as judge of department 3 of the Superior Court of this county. Mr. Cashin owes his success in life entirely to his own efforts. He started his career here as a fruit packer for Griffin & Skelley. Later he accepted the agency for the National Ice Company, and during his spare time he studied law. In 1904 he entered the law office of Judge M. K. Harris, and in 1905 he was admitted to the bar. He became associated with State Senator George W. Cartwright, and after the removal of Cartwright from this city he formed a partnership with Harry E. Barbour. He was for some time United States commissioner for this district.—Fresno Mirror.

BY GOSH! TEDDY'S LESSONS WERE RIGHT.

NEXT WINTER'S PIES

As usual, the country is to produce berries, fruits and vegetables this summer in excess of the amount that can be eaten at once, yet the preservation of the surplus is rendered difficult by the fact that the war has caused a shortage of tin and other containers. How then shall this food be kept for later consumption? By dehydration.

This method of preservation has been described repeatedly. The government, through the Department of Agriculture, gives its approval to dehydration. The term means merely the removal of water. A great variety of garden and farm products is amenable to this process, including apples, apricots, asparagus, bananas, beans, beets, grapes, onions, oranges, parsley, parsnips, peaches, pears, peas, potatoes, rhubarb, pumpkins, spinach, squash, cabbage, cauliflower, carrots, celery, corn, tomatoes and turnips.

Nearly every member of the older generation can recall the succulent pies which his or her mother made of dried apples. The old-fashioned dried apple pie was a glorious example of the possibilities of dehydration. If the process is properly followed there need be no loss of flavor and the product will keep for years.

In former times a great deal of vegetables and fruits have been wasted because of the faulty system of distribution in this country or because of the manipulations of food speculators. There should be none of this waste this season. Any oversupply that cannot be got to market for use while still fresh should be dried commercially. And this process should be more commonly employed in the homes in place of the old-fashioned method of preserving in cans. Food conservation is a general duty.—Chicago News.

THE WANDERER.

Through other lands I went a-gleaming.
Amid a mass of golden glow;
But all the while my eyes were seeing
The cowslips in a field I know.

And while from bubbling fountains
drinking
In many a vine-draped, fragrant dell
And wayside grotto, I was thinking
Of cold draughts from a farmstead well.

When night, in star-strewn robes, was
nearing,
And lulling music filled the air,
My cheeks were wet, for I was hearing
The chatter round a wide armchair.

At morning light the sun's sly gleaming
Stole in, and with warm finger tips
Caressed my face—ah, I was dreaming
Of kisses soft from loving lips!
—Anne Porter Johnson, in The People's Home Journal.

TODAY 20 YEARS AGO

Superintendent of Streets Miller worked on an ordinance proposing to re-number the streets of Oakland so that they would accord with the number of the streets, and so save confusion.

Miss Mary McLean, daughter of Rev. J. K. McLean, returned after a year's stay in Europe, and planned to go to Stanford University to fill the chair of English literature.

Dennis Diamond, an artist of Fruitvale, built a quaint studio with human skulls for a freize in one of the rooms. The skull of a Flathead Indian was placed over the entrance, and upon the pressure of an electric button became illuminated and shone a grim welcome from the sunken eyes.

The cornerstone of the new Home for Aged and Infirm Colored People at Beulah was laid under the auspices of District Grand Lodge, No. 32, of the Grand United Lodge of Odd Fellows.

SHAKE-UP
FOLLOWS
U. S. PROBE

Five immigration inspectors have been dismissed, two well-known attorneys disbarred from practicing before Federal departments and a sweeping Federal Grand Jury investigation promised, as a result of peremptory action of the authorities at Washington following the disclosure of the Angel Island immigration scandals.

The discharged inspectors are W. D. Heitmann, J. H. McCall, William M. Gassaway, William W. Thess and Clarence E. Ehey. The attorneys who have been prevented from further practice, before the Department of Labor and all immigration stations are O. P. Sledge and Henry C. Kennah. The attorneys are said to have controlled about 86 per cent of all Chinese business passing through those two departments.

INVESTIGATION.
The discharges and disbarments were made upon the recommendations of Solicitor John E. Densmore of the Department of Labor. It was his investigation that exposed the alleged graft ring of Angel Island. Acting upon Densmore's recommendation, Secretary of Labor W. B. Wilson issued the prohibitive orders which shut the two attorneys out of the Federal departments. Upon a similar recommendation, Commissioner General of Immigration Anthony Caminetti ordered Commissioner of Immigration Edward White to dismiss the five inspectors under fire.

The inspectors were suspended by Densmore on July 24 after he had made a thorough investigation of the alleged graft situation. The matter had been delayed, owing to congestions in the affairs of the Federal departments, until yesterday, when the official order came through. The specific basis upon which the action affecting the unfortunate seven was based is declared to have been the habit of the attorneys to smooth the way for Chinese to enter the country with the aid of the five inspectors. Fifteen men have been dismissed, transferred or resignations accepted as a result of Densmore's investigations.

PROBE COMING.
It is understood that a sweeping investigation by the Federal Grand Jury is to follow. Other matters which have not been made public are to be the subject for investigation and a wholesale consideration of the matters turned up by Densmore's investigation are also to be taken up.

STEAM-HEATED
SEA WEED IS
OURS ALONE

Oakland has produced something new to botany in steam-heated seaweed. It matches the seaweed of tropical seas—only it is raised by a greater heat, and so far as is known, grows only in one place in the world. That is the cooling tanks of the Key Route power house.

Here power water is pumped in, used to condense steam, and sent out again in the cement tanks to cool. The steaming water served as an incubator for some infinitesimal organisms—never before known—and steam-heated seaweed is the result.

Nathaniel Lloyd Gardner, assistant professor of botany at the University of California, is mystified by the strange little vegetable particles that live and thrive in water heated at 140 degrees Fahrenheit. He calls it the "New Pacific Marine Algae," and also he calls it "Arthrospira Maxima." That means that it has a curly stem like a corkscrew, a pig's tail or the Mount Tamalpais railway.

So far it has not grown big enough to clog the engine cylinders in the power house, and the Key Route people are quite proud of little Arthrospira.

EXTRA FIREMEN
LOSE IN APPEAL

Efforts on the part of a committee representing the extra firemen who will be legislated out of their jobs with adoption by the council of a new ordinance recommended by the civil service board, to obtain concessions from the board met with rebuff last night.

It was asked that the board waive physical and mental examinations of extra men who have served on the fire department for many years. President Roscoe D. Jones said that the board is willing to waive certain physical requirements, but that the mental tests cannot be eliminated. Such procedure, the board feels, would admit to the department many men who would be unable to meet the requirements and entitle them to retirement on pension.

With Commissioner Jackson the only opponent of the measure, the civil service board's ordinance, which eliminates ninety extra, or "call" men, from the fire department after September 1, was passed to print by the city council today. Commissioner Jackson stated that his opposition to the ordinance is the consequent reduction of the fire-fighting force by placing the department on a regular basis. Also, he said that the failure of the majority members in council to provide funds for further motorization of the fire department this year threatens serious effect and possible raise in insurance rates through recommendation of the board of fire underwriters.

COAL SHORT,
PRICES HIGH,
PREDICTION

Declarations that the order of President Wilson, issued today under authority of the recent food control bill of Congress fixing the bituminous coal prices of every mine in the United States as a preliminary step, toward complete control of the country's fuel output, will result in a coal shortage throughout the country with a corresponding jump in price, were made here today by local coal men.

The presidential order was based upon estimates furnished by the Federal Trade Commission, which after months of exhaustive inquiry filed a report upon conditions. The country has been divided into twenty-four valuation districts and each producer within each district will market his products at the same price. The President has named no agency to carry out his order, but it is understood that a coal administrator with authority similar to that of Herbert C. Hoover in food control matters, will be appointed.

The effect of the fuel control edict upon local market is set forth by J. B. Muir, secretary of the California Fuel Delivery Protective Association. Muir asserts that many small mines in Utah, Wyoming and New Mexico which have entered the field recently on account of advanced prices of coal will be now forced to shut down under the restricted control. This will produce, he alleges, a corresponding shortage in supply which will be strongly felt on the Pacific Coast.

NO POOLING PLAN.
The President's order apparently makes no provision for a pooling arrangement, which had been suggested, under which mines would have been paid for their output on a basis of cost of production plus a percentage of profit. Under this plan all coal in a district would have been sold at the same rate, but the mines would have received compensation based solely on costs.

GARFIELD AS DICTATOR?
WASHINGTON, Aug. 22.—Having determined the prices to be charged for bituminous coal at the mines throughout the country, President Wilson today turned his attention to the task of selecting a man to head the coal administration. Rumors today name President Harry A. Garfield of Williams College, now head of the committee fixing prices on wheat, as the likely appointee. The President also agreed to fix the coal prices to be charged by middlemen and retailers.

SAYS IN U. S.
LIES HOPE
FOR PEACE

In President Wilson lies Germany's greatest hope for peace, despite the fact that we are at war with the German nation, was the statement of Congressman J. A. Elston before the Alameda County Bar Association last night on the occasion of the dinner in honor of the two newly made superior judges, James G. Quinn and Joseph S. Koford.

J. F. Neylan, former chairman of the State Board of Control, was scheduled for a talk on the aims of Herbert Hoover, national food dictator, but illness prevented his presence.

M. C. Chapman, president of the Bar Association, presided as toastmaster and introduced Judge Quinn and Judge Koford, who made short talks to their brothers in the legal profession, each earnestly urging the sincere cooperation of an audience of the bar in dispensing justice in the two departments of the superior court in which they are now presiding.

President Chapman, in introducing Koford, remarked that it was unusual that the youngest of the aspirants to the office of superior judge should be the one to be chosen, especially in view of the fact that about forty lawyers were active candidates and the remainder of the entire profession in Alameda county were either passive or receptive candidates and that the entire bar of the county was ready and willing to jump upon the bench.

HOOPER'S POWER.
In speaking of the things which are being done in Washington City Elston said: "Herbert Hoover has more power than any one man in this nation today. He absolutely controls the buying for the entire allied cause. He has absolute control over the nation's food supply and holds that of almost every big neutral nation in the palm of his hand."

"Yet he is the most sincerely unselfish, conscientious man I have ever met. He does not give one the impression of a dictator but rather of a quiet, resourceful man, which indeed he is."

"I tell you there is not one misgiving in Washington today over the submarine problem, and this in spite of the figures produced by experts that the U-boats are sinking 50,000 tons more each month than the entire shipyards of the allied world can construct, and the available bottoms are only sufficient to last for a year and a half."

"There are additional millions of tons under the control of neutrals and Hoover and his associates are even now ready with the plan by which they can bring all surplus shipping of this class under control."

NOTHING TO FEAR.
"In conclusion I want to say that this nation has nothing to fear from congress. There is no room for the feeling that the Congress will take away any of the rights which are so near to the hearts of Americans. This thing has been feared, I know, but I can tell you gentlemen assembled here that the fear is groundless."

"We should think now of our duty to the nation rather than of our rights. The nation, and this is the doctrine which I hope will be spread by all here present."

Those present at the speaker's table were: M. C. Chapman, Judges J. S. Koford, J. G. Quinn, W. H. Waste, F. B. Ogden, T. W. Harris, E. J. Brown and W. H. Donahue, R. M. Fitzgerald, Hon. J. A. Elston, District Attorney W. H. L. Hyde, O. D. Hamlin Jr., J. J. Kennedy, Phil Carey, Justice of the Peace H. W. Puleifer, C. E. Snook and Earl D. White, secretary of the Bar Association.

DR. WISE TO SPEAK.
Dr. Sara E. Wise, of San Francisco, will speak at the Woman's Club House, Park boulevard and Newton avenue tomorrow and Friday at 2:30 o'clock. In the evening of these dates she speaks at the Eighth Avenue Methodist Church. Her subjects will concern race betterment and moral education.

Phone Oak. 496 and we will deliver your order promptly. Serve it for dinner and watch your dessert troubles vanish.—Advertisement

Schools Gave Germany Its Power
Hunter Speaks to Mothers' Club

"Germany has withstood thus far the allies in the war," declared Superintendent of Schools Fred Hunter yesterday afternoon, because forty years ago her schoolmasters realized what the public schools could do."

Hunter was the speaker before the Oakland Federation of Mothers' Clubs' meeting at the initial session of the year in the Municipal Auditorium.

"Germany has done what she has with evil intent and malicious aforethought. We cannot stand what she has made out of it and yet we must admire the efficient public school system which has built up her strength."

"Our schools must have a definite, sensible and fundamental program, which includes a knowledge on the part of the public who pay the bills of what the schools can do. They should be the chief social agent for civic betterment and ideals and give to the future generation a more efficient citizenship."

EFFICIENCY.
"To be efficient they must be founded upon co-operation and community consciousness must be developed. It is a big problem which we have to meet to make the boys and girls work together in a co-operative way. The school program should be so flexible that it would follow the student and save to the world the young children who by scores and hundreds drop out before the high school period. The community must keep its hands on its future citizens, connecting them with opportunity."

BAKER SOON TO
GIVE ACCOUNT
OF WAR WORK

WASHINGTON, Aug. 22.—The first official summary of the war activities of the United States will be issued in a few days by Secretary Baker, to be followed weekly thereafter with statements of such matters as may be disclosed without violating military precautions.

Secretary Baker said he would go just as far as the military advisers of the Government deemed wise toward informing the public of what was in progress.

When American troops get into action in France daily statements probably will be issued, founded upon reports from General Pershing.

Regarding rumors of disasters to American troops or shipping, Baker reiterated emphatically the pledge of the administration to keep the public informed of the venture of the forces from the public.

The extent to which naval happenings can be made public is a different matter. Secretary Daniels has promised that news of disasters will be given out with as little delay as possible.

HUNTER IS KILLED

AUBURN, Aug. 22.—James W. Cleaver of Lincoln was accidentally shot and killed while hunting near Georgetown.

Distinctive and Individual Optical Service
When you visit any of our establishments you are immediately impressed with the good optical service rendered. Each individual's requirements are carefully analyzed by experienced men, so that you at once realize that our optical service is distinctive and superior—out of the ordinary—progressive. Our aim is to serve you at all times in such a satisfactory manner that you will be a life-long customer.

BOYLE QUILTS COMMITTEE ON FINANCE

With the resignation of School Director Harry L. Boyle as a member of the finance committee of the city board of education, fuel has been added to the flame of controversy that has existed between Boyle and Secretary Dan W. Pratt for many months. Boyle tendered his resignation to President A. S. Kelly last night, charging irregularities in handling financial matters by the board.

Boyle complained that the expenditure of \$2500 for additional land at the Vocational High School and improvements to the building was illegally accomplished because bids were not called for. While it is admitted that technically the regular procedure should be followed in such cases, it has long been the custom of the board to ignore the procedure which if taken, would entail great cost in accomplishing small transactions.

Secretary Pratt stated that in that specific transaction all of the members of the board agreed, including Boyle, when the work was done. Boyle then refused to sign the claim. As to the appointment of operating expenses to the different funds, Secretary Pratt says the percentages have been carefully figured, even more so than in preceding years. Director Boyle claimed that the percentages were arbitrarily fixed as applying to the high, elementary and kindergarten funds.

KELLY'S STATEMENT.
Dr. Kelly today issued the following statement:
"There has been no juggling of school funds by the Board of Education or its executive officers, nor has there been any expenditure which has not been legitimate."

"The power to contract indebtedness under certain emergencies has been delegated by the Board to its executive officers, but no expenditure of school funds has been made without due authorization or proper auditing by the Board. Under the system employed each year is made by the president of the Board and passed by the Board in open session."

"On June 30, 1917, the department had liabilities, kindergarten budget \$40,113, elementary \$45,512.82 and high schools \$46,910.11. The amounts remaining in the hands of the county treasurer on June 30, 1917, to which reference has frequently been made, were \$1,000,000.00. The amount set aside to meet these incurred liabilities—contracts made or purchase orders issued prior to the close of that fiscal year—was \$1,000,000.00."

DEDUCT FROM ASSETS.
"No one will dispute that the liabilities of a corporation, municipal or commercial, must be deducted from its assets before its surplus can be ascertained."

"The appointment of overhead expense is made upon a percentage basis obtained by figuring the relation of attendance of kindergarten, elementary and high schools to the total attendance of all schools and the relation of each budget to the total budget of the department. This method needs no justification to one familiar with modern bookkeeping practice or cost accounting."

GARAGE REMOVED

The first step toward vacating the west lower portion of the city hall in order to clear the space and give room, it is rumored, for the installation of a public convenience station there, was taken by the council today when an ordinance providing for the removal of the police garage to the city garage was adopted. At the same time, a resolution creating two more positions in the municipal garage was passed. The change will relieve for police duty Sergeant J. J. Sherry and his assistant, who now work on the police autos at the city hall garage.

How Much and What to Eat, Told Savant Calculates Human Needs

Here are extracts from Professor M. E. Jaffa's table of food capacities:
A child between 2 and 5 years needs five-eighths as much food as a woman.
A child between 6 and 9 years needs six-eighths as much.
A child between 9 and 13 years needs seven-eighths as much.
A man eats 1 1/4 times as much as a woman.
A man at hard work eats 1 1/2 times as much.

Human beings must learn not only what to eat—but how much to eat, if they are to fight the high cost of living with anything like efficiency. They must know just how much food they need, just how to balance it up for the best results, and just what amount—and just the cost—of any particular food will be necessary to keep that human machine in operation.

Professor Meyer E. Jaffa, head of the State food laboratory and University of California expert, has solved these problems for California. In "Food Standards," his new set of statistics on nutrition and on living within an income and doing it efficiently, the savant has prepared tables designed to show the minimum ration for every grade of human being.

Professor Jaffa's new set of statistics does not tell a man how to live on \$60 a month—it only tells him how much he has to eat a day—and what he has to eat a day—in order to keep his machinery working. He takes stock of his family, considers the market cost of food, and calculates to a cent what it costs a day, or a week, to keep the family going properly.

APPEAL TO "SAFETY FACTOR."
The dietaries Professor Jaffa has introduced in "Food Standards" are, he says, simply rules for arriving at the minimum of food needed, as may be.

MINIMUM DIETARIES FOR DIFFERENT AGES.

Food.	Approximate Amounts of Staple Foods for One Day.									
	1 yr.	2 yrs.	4 yrs.	7 yrs.	11 yrs.	15 yrs.	Woman	Man	Children.	Adults
Meat and Fish	1.00	2.00	2.00	1.50	3.00	5.00	5.00	7.0	7.0	7.0
Eggs	1.00	2.00	2.00	1.50	3.00	5.00	5.00	7.0	7.0	7.0
Milk	32.00	32.00	24.00	18.00	16.00	16.00	12.00	16.0	16.0	16.0
Beans					.25	.50		1.0	1.0	1.0
Bread		1.50	3.50	5.00	8.00	11.00	9.00	16.0	16.0	16.0
Other Cereals		2.00	2.50	2.50	3.00	4.00	4.00	5.0	5.0	5.0
Fruit		3.00	4.00	5.00	5.00	5.00	5.00	8.0	8.0	8.0
Vegetables		2.00	5.00	8.00	10.00	12.00	12.00	16.0	16.0	16.0
Class IV					.25	.50		1.0	1.0	1.0
Oil				.50	.50	.75	1.00	1.0	1.0	1.0
Butter		.25						1.0	1.0	1.0
Sugar	1.50	1.00	1.00	1.25	1.50	2.25	2.00	3.0	3.0	3.0
Tea and Coffee								.50	.50	.50
Sundries										

The quantity is large because the material is strained and only partly used.

There is considerable difference of opinion in regard to the age at which meat should be given. If used under 4 years, it replaces egg on alternate days.

Vegetables include potatoes.

The common measure of the listed foods can be judged by the following: One cup of milk, 8 oz.; one egg weighs about 2 oz.; one medium-sized chicken, 4 oz.; a medium-sized apple or orange, 5 oz.; one serving of potato or vegetable, 6 oz. (as purchased); one serving butter, 5 oz.; one slice bread, 1 oz.

When children enter the adolescent period, their food need is greatly in excess of what the age and weight seem to call for. No allowance for this extra is made in this table. An increase of 50 per cent is not unusual.

CAN CALCULATE COST.

Jaffa calls attention that different peoples may differ in their choice of staples, but that the basic principles remain. For instance, the Italian takes his starches as macaroni, the American in the form of potatoes. Some prefer much or bread stuffs.

Using this diet table, by applying the market price of a commodity under each group as it is used, the cost of rationing the human being for a day or a week is readily determined.

A child between two and five years Jaffa holds, takes five-eighths as much food as an average woman, and between 6 and 9 years, sixth-eighths as much. Between 9 and 13 years the food consumption becomes seventh-eighths, or almost that of the grown woman, and after 13 years the needs of the body are those of an adult.

A man, holds Jaffa, needs one

and a quarter times as much food as a woman, on an average, and hard work brings this need up to one and a half times as much.

"No small money allowance can be depended on to provide adequate food supply if it or any part of it is spent for delicatessen or canned goods," writes Professor Jaffa.

STRIKES BOY, CARS

After running over 8-year-old Allen Ross of 514 Sixteenth street, a car of Golden State drove his automobile into a Kew Route turn at Alameda and Lowell streets, wrecking the auto and injuring his companion, Jim Keranos. Keranos was removed to the Emergency hospital and the Ross boy was taken to his home, where he is in precarious condition. Casuals were held by the police at the Northern station for investigation on the theory that he had attempted to escape after striking the boy. He was later released.

LOVE COOL, MRS. BEBB LOST WEIGHT

Mrs. Rose C. Bebb lost eighteen pounds in a month because of mental distress after she had seen her daughter riding in his automobile with a strange young woman and realized that his affection for her was cooling, according to her testimony this morning in her \$50,000 suit for breach of promise against the former husband of Anita Baldwin.

"I saw him somewhere out of Oakland with a young lady," she said. "I taxed him with this, and he told me that he had been out just for diversion, as he did not know anything about his troubles. About a week later I was out riding and passed his automobile—he was again in company with a young lady; I don't know whether it was the same one or not. I became very ill and had a nervous attack that lasted for hours."

"Did you summon a physician?" asked her attorney.

"Not that time. But when I realized what was happening I suffered a nervous breakdown, lost my appetite, I weighed 135 pounds when I began to suffer this way, and I went down to 117 pounds in September—it was in August that I saw him with the young lady."

"Were there any discussions between you and the defendant as to financial matters?"

"To get more, if good."

"Yes, in January, 1915, I was keeping house then in Fulton street. I told him that I had received \$100,000 from Anita Baldwin and that he was to have \$75,000 more if he was good. He informed me that he had a large farm near Sacramento, and a home in Galt to which he did not wish to take me because the neighbors were not congenial. He said that he was planning to build a home in Berkeley."

"He also told me that he had some valuable diamonds in the vault of the Bank of Galt, and that he was going to have one of them set in a ring for me."

"When you were settling in the Fulton street house, did the defendant come to see you there?"

"Yes, nearly every day. He would stay for an hour or an hour and a half. He helped me put up some window shades."

"You have spoken, Mrs. Bebb, of dinners which you prepared for the defendant and of which he partook in your home. Did he ever see you at work preparing these meals?"

"Oh, yes. He would sit in the kitchen and talk to me. I told him that I did not like to have him come with a big apron on. He said that it made no difference and that he loved me just the same."

"Did he ever express any opinion about the meals you prepared?"

"Yes, he said that he always ate so much when he came to my house, because my cooking was so good. 'Did the defendant give any reason why he wished the fact of your engagement to remain unknown?'"

"Yes, he insisted very strongly that I should tell no one. Once he even wanted to swear me to secrecy. He said that if I told anyone he would get the \$75,000 he expected from her."

Mrs. Bebb testified to an incident in a local cafe when she said that McClachry adopted a possessive attitude toward her. She declared that Walter Robinson came to their table and asked for a dance, and that McClachry remarked:

"I don't know whether I shall let her dance with you or not."

CAN'T TELL AGE.

Cross-examination of the plaintiff by Attorney M. C. Chapman began half an hour before the close of the morning session. Two lines of attack were at once developed—one to show that Attorney Walter Robinson had dictated one of the letters to the plaintiff, which Mrs. Bebb had written to McClachry demanding the fulfillment of his alleged promises of marriage, and the other directed at the witness memory for dates.

"When were you born?" demanded Chapman as his first question.

"Eighteen-six—let me think," hesitated the witness to think.

"Take your time to think," said Chapman. "I think you must be mistaken—that would make you a very old lady."

"I can't think of the year," finally replied Mrs. Bebb.

The plaintiff, after a series of questions, at last stated that she was 39 on her last birthday, October 22, 1916. Chapman then referred to her divorce proceedings in which she had testified on March 1, 1910, that she was then 35 and to her deposition, taken January 26 of this year, in which she stated her age to be 33.

The incident in the cafe when McClachry was alleged to have objected to her dancing was next taken up.

"You had known Mr. Robinson for some time, had you not, and you had gone out to dances with him?"

Counsel for the plaintiff here objected, and E. E. Trefethen then stated to the court that it was the intention of the defense to show that Robinson had dictated some of the demand letters. The point was temporarily dropped, however, to be taken up later.

DATES CONFUSED.
Chapman then tried to pin the witness down to the exact date in 1914 when she first met McClachry. This proved difficult. She had stated in her direct testimony that the first three meetings were in August and that the second meeting was in the presence of McClachry's daughter, Dextra.

"You don't know then that Dextra

Just Phone for Dessert

No woman enjoys working about a warm stove preparing dessert when Lehighville have solved the dessert question with their special ice cream bricks. Delivered to your home packed in ice in quart sizes for 80c. Less if you call at the Broadway store for them. Phone Oak 484 for prompt delivery.—Advertisement.

HOME GUARD TO DECIDE OWN FATE

Whether or not the Oakland Home Guard will continue its existence as an emergency organization, following the failure of city, county and state to provide either arms or headquarters, is to be threshed out Thursday night, at 8 o'clock, at the Twenty-fourth street armory.

Following a conference between Captain Pimm, commanding officer of the Home Guard, and Adjutant-General Borree, in Sacramento several weeks ago, at which Pimm was informed that the state of California did not intend to do anything toward equipping the local contingent, a meeting was held. At that time it was decided to let a committee of six canvass the community for an expression of sentiment upon the matter of properly equipping the guard.

For the past five days Sergeant Cochran W. McCarron and other members of the committee have been from municipal authorities to business institutions sounding the situation. The report of this committee will be presented on Thursday evening.

The Home Guard was originally organized to replace the units of the National Guard, which was called to the colors. City authorities have taken little or no interest in the matter, county authorities have acted aloof, and the state has looked the other way. On the theory that a Home Guard cannot be a Home Guard unless it has something to guard with, the members have decided to bring the situation to a final issue. The members were willing to give their time and patriotic service, but there has been no co-operation, according to members.

The executive committee of the Home Guard includes: Cochran McCarron, chairman; William J. McCarron, William V. Humphrey, W. H. Anderson, Harry C. Smith and Kenneth A. Millican, secretary.

AID FOR BELGIUM

Renewal of the campaign for the collection of funds to feed Belgian children now being cared for in Holland, is to be taken up by the executive committee of the California Committee for Relief in Belgium and France, in the Bell club rooms, fourteenth and Harrison streets, August 23.

Mrs. Mark Requa will preside. Mrs. Vernon Kellogg, recently returned from France and Belgium, will speak, formerly with the Relief Committee in Belgium; Miss Ethel Moore of the Council of Defense, and other women will speak.

O. K. TRADING ACT

WASHINGTON, Aug. 22.—The trading with the enemy act passed by the House was today reported favorably to the Senate by the commerce committee, amended to permit enemy insurance or re-insurance companies to continue business in the United States under certain conditions and permit abrogation of contracts made with enemy subjects for delivery of products after the war.

The committee also added an amendment authorizing the federal trade commission to license citizens to take over and use enemy-owned plants and to fix the value in the year 1914 was in London, England, as late as August 23.

"No."

The witness was finally forced to admit that her memory of the date was so confused that the first meeting might have been in August, September or October.

"This first meeting in Alameda—how did you go there?"

"Alone in the street car."

"You were living with your husband, were you not, up to the first of June, 1914, notwithstanding the fact that you had secured an interlocutory decree of divorce in 1910?"

"Under the same roof."

"You stated in direct testimony, in answer to your own counsel's questions, that you were living with your husband, did you not?"

"I believe so."

"Your husband accompanied you, did he not, to Alameda?"

"I don't remember."

East Bay Parlor to Aid in Rally on Admission Day

MISS GRACE S. STORMER, grand president N. D. G. W.

Native Sons and Daughters Ready For Big Celebration at Sacramento

East bay parlors of Native Sons are arranging for headquarters at Sacramento for banner delegations for the great Admission Day celebration on September 8, 9 and 10.

In addition to the arrangements committee, which consists of E. F. Garrison, chairman; J. J. Mulgrew, vice-chairman; A. R. Larsen, treasurer, and G. H. Shacklett, secretary, the following executive committee has been appointed: Grand Trustees Harry G. Williams and W. J. Hayes; George Hans, Fruitvale parlor; Al Behnenman, Halcyon parlor; H. L. Sowa, Alameda; M. H. Glaze, Brooklyn; Andy Summers, Richmond; George Wilson, Bay View; C. Wade Snook, Oakland; M. N. Bradley, Estudillo; Archie Willard, Athens; William Bohlen, Claremont; Frank Lake, Eden; John Brennan, Berkeley; and J. E. White, Fremont.

The east bay parlors will play an important part in the program which will be held at Sacramento Monday, September 10. All of the striking events in the history of the state are to be given in this program and the east bay parlors will show the most striking features of early days in the bay region. Particular emphasis will be laid on the pioneer's wonderful work in the upbuilding of the state. The street pageant will be exclusively a patriotic one in which only the Native Sons and Native Daughters will participate.

Following the parade the literary exercises will be held with Grand President J. V. Snyder as president of the day. Mrs. Thomas J. Lennon and Miss Grace S. Stoermer, grand president of the Native Daughters, will make the addresses.
